A DEEP LAID PLOT

TO SWINDLE INSURANCE COM-
PANIES IS UNEARTHED.

THREE MEN UNDER ARREST

MISS MARIE DEFENBACH, THE
INSURED, DIES IN AGONY.

MURDER IS NOW SUSPECTED

POLICIES FOR \$12,000 ARE WAIT-
ING PAYMENT.

Chicago, Oct. 8.—With insurance
upon her life amounting to \$12,000,
Marie Defenbach, aged twenty-three,
died August 25 in a boarding house
on LaSalle avenue under conditions
which the police believe indicate a
plot to swindle an insurance com-
pany and two insurance societies, if
they do not point to murder.

Upon bench warrants issued by
Judge Gibbons, three persons said to
be implicated in the case—Dr. August
M. Unger, Frank H. Smiley and F.
Wayland Brown—have been arrested.
The latter is assistant manager of
a detective agency. He was ar-
rested today on his return from Vir-
ginia.

When Miss Defenbach died there
were three policies on her life aggre-
gating \$12,000, all of recent date, as
follows:

New York Life Insurance company,
\$5,000; Canadian Order of Foresters,
\$5,000; Knights and Ladies of
Honor, \$2,000.

The alleged conspiracy has been in-
vestigated with searching care by a
private detective agency, by the at-
torneys and detectives of the insur-
ance companies and latterly by the
state's attorney himself.

Sunday, at a meeting between
States Attorney Deneen and Assist-
ant Attorney McEwen on one side,
and the attorneys representing the
insurance companies and detective
agency on the other, the case was
discussed and it was decided to cause
the immediate arrest of the suspects.

The detectives believe that a con-
spiracy was concocted and that Miss
Defenbach was originally one of the
quartet of alleged conspirators. She
had expected that her death was to
be feigned; that another body was to
play the passive role of her corpse,
instead of that real death came to her.

Last April Miss Defenbach applied
to the New York Life Insurance
company for a \$10,000 policy. This
was refused by the company, as was
also an application for an \$8,000 pol-
icy on the ground that she was not
possessed of sufficient property in-
terests to warrant so large a risk, al-
though she was examined and de-
clared to be in perfect health.

In July Miss Defenbach succeeded
in obtaining from the New York com-
pany a policy for \$5,000 and this
formed part of the estate she left.

About the middle of August Miss
Defenbach also secured insurance in
the Canadian Order of Foresters to
the amount of \$5,000. About the
same time she took out a policy in
the Knights and Ladies of Honor for
\$2,000. Two weeks later she was
dead, leaving a will which directed
that a part of the policies should be
paid to Frank H. Smiley, her "aff-
anced husband," and that her body
be cremated.

Her death, at a boarding house in
LaSalle avenue, was attended by the
most horrible agony. Drs. Leonard
and Schroeder, the latter physician
representing the Knights and Ladies
of Honor, were called. They refused
to issue a certificate of death, but the
coroner's jury later, and after the
body had been embalmed, found a
verdict of death from dysentery. The
next day the body was cremated and
the ashes were scattered to the winds.

Without much delay proceedings
were begun to recover the value of
the insurance policies Miss Defen-
bach had left. Owing to the unusual
circumstances surrounding her de-
mise, the hurried embalming of the
body, followed this next day by cre-
mation, payments of the policies were
refused and immediate steps were
taken to trace the woman's career
during the last few months of her
life.

An unusual incident was connected
with the making of Miss Defenbach's
will. On August 21 Miss Defenbach
called at the office of a lawyer in the
Unity building named Johnson and
told him she wanted to make her will.

Some days earlier Dr. Unger had,
it is stated, told this lawyer a woman
would call on him for this purpose,
and she announced she had come in
accordance with the appointment.
She told Mr. Johnson she wanted to
leave her property to Frank H.
Smiley, her affianced husband, and
then she went away. Two days after-
ward she returned and Mr. Johnson
had the will ready. It provided, as
she had instructed, that after her
debts were paid her property was to
go to Smiley, but she then wanted
another provision inserted.

It was that after her death her
body be cremated.
This somewhat surprised Mr. John-
son, as he could not understand how
a young and handsome woman would
wish her body cremated after death,
but he complied with the request.

He was so struck with the circum-
stance, however, as the cremation
clause had not been in the original in-
structions, that he called in witnesses
from adjoining offices as a matter of
protection.

Miss Defenbach then signed and ex-
ecuted the document. Two days later
she was dead.

PAYMENT NOT RESISTED.

New York, Oct. 8.—George W.
Hubball, attorney for the New York
Life Insurance company, said today
that the company had issued a policy
for \$5,000 to Marie Defenbach a short
time ago. They had been notified of
the death of Miss Defenbach, but
have not resisted paying the amount
of the policy, as no claim has yet been
made for the money.

When asked whether it was usual
for the company to investigate all
deaths, or if this was an exceptional
case, and if such, why? Mr. Hubball
replied:

"No; under ordinary circumstances
we do not investigate, but in a case
like this, where policies from a num-
ber of companies had been issued so
short a time before death, I suppose
this would be done as a matter of
safety. However, I am without in-
formation and am not prepared to
discuss the matter in detail."

CAPTURE OF AMERICANS.

(Copyrighted, 1900, The Associated Press.)
Manila, Oct. 5, via Hong Kong, Oct.
8.—The report of the capture of about
sixty men of the Twenty-ninth in-
fantry on Marinduque Island is con-
firmed through communications from
MacArthur and Kempff from Mar-
induque Island, but details are lacking.

The Yorktown's relief column land-
ed at Torrijos, on the Marinduque
coast, and marched to Santa Cruz,
which was the proposed route of the
captured party, without encountering
the enemy or learning anything
definite regarding the captives ex-
cept that they had entirely disap-
peared.

Marinduque is a small island with-
in forty miles of Luzon. It is pos-
sible that the rebels have conveyed
the captives to Luzon.

EQUAL TO ELECTRIC LIGHT.

"Kerosene oil can only be used to
produce a light equal to electricity by
exploding it with air under compres-
sion in a cylinder for less cost than
the same volume of light can be pro-
duced through the medium of the
house lamp," said Engineer John A.
Secor in a lecture before the New
York Railroad club last evening.

"This is another monument along
the line of progress.

"The earth," continued Mr. Secor,
"has yielded up millions of tons of
coal to furnish power, and when we
look at the enormous waste of this
most valuable of nature's gifts we
cannot feel that we have done well,
for we have lost not less than 93
per cent of its value as measured by
heat units. This extravagant waste
has caused engineers to seek a better
means of using our thermal powers.
We can now turn coal into gas, us-
ing gas direct in the cylinder of the
engine without the use of the boiler
and its attendant evils and with
less loss, but still we have only ex-
changed the boiler plant for the gas
plant. But petroleum oil, which is
produced by billions of gallons and
furnishes, in its distillation, 85 per
cent of what is known as kerosene
oil, may be used directly in the cylin-
der of the engine, to drive machinery,
automobiles, boats, to light and ven-
tilate our homes and for all pur-
poses where power is needed. Its
thermo dynamic value is greater
than any known liquid fuel."—Phila-
delphia Medical Journal.

THE COURT NEWS.

FIRST JURY TRIAL IN NEW
COURT HOUSE.

NAMES OF TWELVE JURYMEN

JUDGE VESEY GRANTED MRS.
MCCOY DIVORCE.

BUSINESS IN CIRCUIT COURT

JUDGE O'BROURKE DISPOSES OF
PROBATE MATTERS.

Judge Vesey this morning presided
at the first jury trial in the magnifi-
cent new court house. The case is a
replevin suit in which Hanna Wil-
son is plaintiff and George A. Wilson
defendant. H. I. Smith is attorney
for plaintiff and Wilmer Leonard and
T. J. Logan appeared for the defend-
ant. The jury is composed of the fol-
lowing well known Allen county citi-
zens, who can tell their posterity that
they sat on the first jury that tried a
case in the court house: Martin Den-
zel, Levi Dreisbach, J. M. Kayser,
Herman Gerke, John Fry, James
Pearson, Barney Roth, Daniel Mey-
ers, Magnus Roebach, Jr., Howard
Wolf, Barney Tibbetts, Jacob Bas-
tian.

GIVEN A DIVORCE.

In the superior court Judge Vesey
heard evidence in the divorce pro-
ceedings of Elizabeth McCoy vs.
Charles McCoy, in which the plaintiff
alleged cruel and inhuman treat-
ment. Judge Vesey at one time was
inclined not to grant the decree but
additional evidence was introduced as
to the husband's treatment of the
plaintiff and the wife was given a
divorce. She was also given the cus-
tody of three children, a daughter
aged 18 and two sons, aged respec-
tively 14 and 12 years.

NOTES.

Fred E. Zollars, for defendant, filed
a motion for a new trial in the case
of Kiser vs. Furge, which was tried
in the superior court.

The will of the late William Hage-
man has been filed for probate in the
circuit court. The property of Mr.
Hageman is left to the widow, during
her life to dispose of if she so desires
and at her death \$10 goes to a son,
Gottlieb, and the balance is divided
into nine shares and goes to the
other children, step-children and
grandchildren.

The county clerk has received no-
tice that Charles Lewis, who was sent
to the Indiana reformatory in 1896,
has been discharged.

Charles H. Titus, administrator of
the estate of Louise Titus, deceased,
reports the sale of decedent's real es-
tate. The sale was confirmed and
deed ordered.

The case of the state ex. rel. John
H. Brannan vs. Samuel R. Alden et
al., has been set for trial November
23 before a jury.

The case in re-application for guar-
dianship of Regina Gable has been
set for hearing October 29.

The appeal of Comedery Hickman,
who was refused a license by the
county commissioners, has been set
for trial October 27.

Judge O'Rourke has declared
Hiram Dingman to be of sound mind
and capable of managing his own es-
tate.

Cloyd Clawson, now residing at
Columbia City, but who formerly
lived here, this morning began suit
in the Whitley circuit court against
Samuel J. Peabody for the sum of
\$10,000. Mr. Clawson was until re-
cently an employee in the Peabody
saw mill at Columbia City, but in
September he lost his right arm in
the mill and he alleges negligence on
the part of the milling company. At-
torney George W. Felts of this city,
filed the complaint.

Citizens of Monroeille have filed
with the board of commissioners a
petition praying for the annexation
of certain territory contiguous to the
town.

The case of Warmuth vs. Essinger,
filed in the superior court has been
dismissed.

Mary E. Christie has filed a final
report as guardian of Juanita Brink-
man.

Samuel Seibold, guardian of Carrie
Shoup, et al., has filed his final re-
port.

It is said that the Canadian Soo

canal may be closed for lack of pat-
ronage. Vessel men say this would
be a bad move, for in case of accident
in the American canal there would be
a blockade. They say that they will
use the Canadian passage more in
future that it may be maintained.

SAN CHUEN NOW QUIET.

Hong Kong, Oct. 8.—The town of
San-Chuen is quiet this morning and
the stores have reopened. The rebels
who attacked Sai-Wan, near San-
Chuen, Saturday are believed to be-
long to the force of triads which is
proceeding westward, levying black-
mail and recruiting. The missions in
the hinterland are safe.

ON THE WRONG END.

Though hazing is under the ban
at West Point there are one or two
forms of humiliation to which the
"plebes," as the new comers are
called, are always subjected. One
is that during their first year at the
academy, their title is "Mr. So and
So," never being allowed to mention
their names without the prefix. An-
other is that every sentence addressed
to one of the older cadets must end
with a "sir."

An amusing anecdote is told in the
New York Tribune of a raw country
lad who reported at West Point a few
years ago, concerning the use of the
word "sir." When the new cadets
report at the academy they first visit
the adjutant's office, where they de-
posit their credentials and give in-
formation concerning their parents or
guardians and their former car-
riers. Next they visit the treasurer's
office and deposit what money they
may have with them, and then they
go to the barracks, where they report
to the cadet officer in charge of their
instruction. It is here that they re-
ceive their first taste of military dis-
cipline. Well, this young man
passed through the preliminaries,
finally reaching the barracks, and
after several attempts to enter the
office in a military manner and to
the satisfaction of the austere lieut-
enant in charge, he was asked by
that functionary what his name was.

"John Smith," answered the lad.

"Suppose you put a 'sir' on that?"

cried the cadet officer, forgetting for
the moment in his assumed wrath
the equally heinous omission of the
"Mr."

"Sir John Smith," innocently re-
plied the plebe, and supposed he had
obeyed to the letter his superior's in-
junction. For the next few minutes
that poor plebe's life was a burden
to him, for all the cadets about the
room at once began "crawling" him
for his supposed attempt at face-
tiousness. The name "Sir John"
stuck to him throughout his entire
career at the academy, and even fol-
lowed him into the army.

MANY ELECTION ATTS.

The designation of the day for
holding the presidential election is
left to congress. The first act
passed by it relating to that subject
was in 1792. It provided that presi-
dential electors should be appointed
"within thirty-four days before the
first Wednesday in December." This
left each state free to select a day to
suit itself within those limits. Penn-
sylvania chose electors on the last
Friday in October. Other states
elected theirs on different days be-
tween the beginning and middle of
November.

When Harrison was elected in 1840
the democrats asserted that his suc-
cess was due partly to fraudulent
voting, which was made possible by
the lack of a definite election day. It
was alleged that Kentucky and Ohio
whigs had voted in both states, the
election being held on different days.
So in 1845 the democrats passed the
law now on the statute books making
the first Tuesday after the first Mon-
day election day.

At that time but five of the twenty-
six states held their state elections in
November. In Michigan and Mis-
sissippi voting was carried on
through two days—the first Monday
and the following Tuesday. New
York had three election days—the
first Monday, Tuesday and Wednes-
day—but had finally confined voting
to the middle day, or the first Tues-
day after the first Monday. Massa-
chusetts chose state officers on the
second Monday in November, and
Delaware on the second Tuesday. So
congress selected the first Tuesday
after the first Monday to consult the
convenience of three states out of
five, one of the three being the im-
portant state of New York.—Kansas

CHILDREN MAKE LACES.

Few people know that most of the
imported laces are made by peasants
and the little children of charitable
institutions. Lace schools have been
founded on the outskirts of the larger
cities; here each child is trained to do
one particular stitch, either on parch-
ment or a black dotted paper, where
the thread is carried from point to
point, the pattern having been care-
fully traced previously, and when the
entire pattern is covered this parch-
ment can be torn away. These laces,
when finished, are placed on the
market, fabulous prices being paid
for them.

1745 between the French and Eng-
lish and it is supposed that the relics
found there are of that date.

JAPAN HANDICAPPED.

The Japan tea trade is under a
great disadvantage, compared with
the China trade. In China the tea
is burned, cured and packed in the
gardens and when it reaches the
port it is ready for shipment. In
Japan, on the contrary, the tea is
brought down the rivers like so
much hay, and the merchants have
to do the burning, curing and pack-
ing themselves. Land is expensive,
yet large premises are required;
hundreds of coolies must be em-
ployed to watch the tea while it is
burning, and within the last three
years packing materials—wood, lead

Rheumatism

Rheumatic pain is the cry of protest and distress from tortured muscles, aching joints and excited nerves. The blood has been poisoned by the accumulation of waste matter in the system, and can no longer supply the pure and health sustaining food they require. The whole system feels the effect of this acid poison; and not until the blood has been purified and brought back to a healthy condition will the aches and pains cease.

Mrs. James Kell, of 707 Ninth street, N. E., Washington, D. C., writes as follows: "A few months ago I had an attack of Sciatic Rheumatism in its worst form. The pain was so intense that I became completely prostrated. The attack was an unusually severe one, and my condition was regarded as being very dangerous. I was attended by one of the most able doctors in Washington, who is also a member of the faculty of a leading medical college here. He told me to continue his prescriptions and I would get well. After having it filled twelve times without receiving the slightest benefit, I decided to continue his treatment any longer. Having heard of S. S. S. (Swift's Specific) recommended for Rheumatism, I decided almost in despair to try it, to give the medicine a trial, and after I had taken a few bottles I was able to hobble around on crutches, and very soon thereafter had no use for them at all. S. S. S. having cured me sound and well. All the distressing pains have left me, my appetite has returned, and I am happy to be again restored to perfect health."

the great vegetable purifier and tonic, is the ideal remedy in all rheumatic troubles. There are no opiates or minerals in it to disturb the digestion and lead to ruinous habits.

We have prepared a special book on Rheumatism which every sufferer from this painful disease should read. It is the most complete and interesting book of the kind in existence. It will be sent free to any one desiring it. Write our physicians fully and freely about your case. We make no charge for medical advice.

THE HOME OF JOAN OF ARC.

Just beyond the church is the Joan of Arc cottage, an ugly building which has no charm in itself or in its surroundings, says Clifton Johnson in Frank Leslie's Popular Monthly. It looks more like a big shed than anything else, for the roof all slants one way from a very high wall at the front to a very low one at the back. The inside is kept as a museum, and it has all a museum's blankness and stiffness, with no suggestion of its ever having been occupied as a home. The old garden at the rear, with its narrow paths and little plots of flowers and vegetables, happily has about it a real touch of humility, and you can fancy it is not unlike what it was in Joan's day, and the mind easily calls up the scene in those twilight hours long ago when the bells of the near church rang and the voices spoke to the humble shepherd maiden.

Ninde & Sons.

Run your eye up and down the advertising columns and notice the number of medicines that are advertised and the promises they make.

Most of them guarantee to cure almost everything.

You are bewildered between the good and the bad, the real and the humbugs.

Well, if you bite at every weed you find in the fields, you will run across trouble sooner or later.

Ayer's medicines were made in the good old days when promise and performance went hand in hand.

They're as good today.

BEGINS SIXTH YEAR.

Sunday marked the beginning of Rev. L. L. Benson's sixth year as pastor of the First Baptist church, and despite the inclement weather his congregation was an unusually large one. The anniversary sermon had as its keynote "Work," divided under three heads—"Keep at Work," "Work Together," and "Work With God." Rev. Benson's pastorate has been uniformly successful and some idea of his work may be obtained when it is known that during the past five years he had admitted 439 members, married 96 couples and preached 148 funeral sermons.

HONORED MR. UNDERWOOD.

H. C. Underwood, president of the Jefferson club of this city, was prominent in the organization of the State Association of Democratic clubs formed at Indianapolis during the national convention. Mr. Underwood was made temporary chairman of the organization and he acquitted himself with honor. He has taken great and valuable interest in the organization of democratic clubs.

BOATED ON THE CANAL.

Mr. and Mrs. James P. Campbell have just celebrated their golden wedding anniversary at Corning, Adams county, Iowa. They were married in Jasper county, Indiana, removing to Iowa in 1854. Mr. Campbell was born in Starke county, Ohio, July 23, 1825, and with his parents moved to Allen county, Ind., near Fort Wayne, where they lived on a farm, afterwards moving to Jasper county, this state. A portion of his boyhood days were spent boating on the old Wabash and Erie canal. Mrs. Campbell was born in Clark county, Ohio, November 5, 1830, and moved with her parents to Jasper county, Ind., a few days later.

HE IS A PIONEER.

Patrick O'Brien, of Huntington, is in the city to attend the funeral of his nephew, John O'Brien, and he will be remembered by many of the older citizens of this city. Years ago Mr. O'Brien followed the profession of civil engineering and was instrumental in the construction of the old canal and was for a time superintendent of the canal after it was in operation. Though past eighty years of age, Mr. O'Brien is remarkably well preserved and is still able to get about as energetically as most men many years younger.

GO TO CONFERENCE.

was filled with oaths and vulgarity. It is not conceivable that this brutal attack was instigated by any person of character that can be held responsible, but it ought to be possible to identify the young scoundrels and visit upon them the severest punishment provided by law for such rowdism. Such an attack would be bad enough under any circumstances, but when the time and place are remembered the atrocity of the offense is indeed multiplied.

THE WATER QUESTION.

The city council and the water works board are trying (at least we assume that they are trying) to get together on the question of the public water supply. It ought to be no very difficult matter to come to an agreement on some plan since the only requisites to such agreement are the employment of common sense and the pursuit of honest and disinterested motives. The solution of the problem is simple and compels attention to but two propositions, namely: First—The public water supply of Fort Wayne should be pure. Second—The public water supply of Fort Wayne should be abundant.

The only unquestionable source of a pure water supply in this territory is wells, the deeper the better. The water from the wells is pure, wholesome and wholly unobjectionable. This is particularly true of the rock wells. The gravel wells do not furnish the same quality of water, but they furnish a supply that is incalculably better than any water that Fort Wayne can procure from any other practicable source and better water than any other city gets from any different source. We cannot get good water except by relying on wells.

There is no doubt that all the water needed can be procured from wells. There is an inexhaustible reservoir of splendid water beneath the city. We can get all we want and more than we need by going into the earth for it. It may cost something to explore for it in order to determine just where wells will yield the most, but the water is beneath us and it can be had. The cost of exploration should weigh as nothing against the necessity of getting the water. It might cost \$10,000 and it might cost \$25,000 to satisfactorily determine just where the most abundant supply of deep well water can be obtained, but if it costs the sum of the two estimates or even more the result will be cheaply purchased, and the expense cheerfully borne by the people of this city.

Plenty of pure water can be provided the people of Fort Wayne and they will not be patient with any senseless, insincere and exasperating plea of economy. Let cheese-paring economy be practiced where, even if not prudent, it at least is harmless. Any program that does not contemplate the prompt settlement of this water question as it ought to be settled will be wanton extravagance no matter how little it costs. No one in this city who is familiar with the situation can be made to believe that there is not an inexhaustible abundance of good water underneath us that can be procured by sensible, intelligent, practicable and competent effort. Let the water works board make its plans on a proper scale and present them to the people. Then if the city council is disposed to obstruct the execution of such plans the time is not far away when the people can get at the council in a fashion that will count. There is no problem to be solved, only a clear demonstration to be applied. This city can have all the pure water it needs, and if coercion be necessary to get it then let there be coercion.

The Boston Post, moved by a republican newspaper's charge that Mr. Bryan is an "idealist," says that this is meant to be a reproach, and adds: "But if Mr. Bryan is an idealist he comes along just at the right time. What the country is suffering from at this moment is the reign of commercialism; what it needs is more idealism. Let us get back to the ideal of constitutional rights for all people under the Stars and Stripes; the ideal of freedom and self-government; the ideal of liberation, not subjugation; the ideal of a world of republics, not satrapies or subject colonies. If Mr. Bryan is an idealist he is the man for the crisis."

There is no known way of suppressing the rough and the rowdy from participation after his own fashion in politics. Thus happened it that Sunday in Chicago Governor Roosevelt was subjected to an ideal of coarse, vicious and wanton insult at a church door where, as he was leaving at the close of worship, he was set upon by a pack of young hoodlums and made the target of the most scurrilous and obscene abuse. Epithets unfit to be printed were applied to this distinguished gentleman, governor of a great state and candidate for the second highest office in the land that would have been unspeakably shocking if leveled at the lowest of mankind. As his carriage was driven away mud and missiles were hurled at it and the air

WINNERS IN THE TOURNEY.

The committee of the golf club appointed to award prizes for the golf contest which closed Saturday, Sept. 29th, has announced the following results:

Gentlemen's Competition—First, Morris Evans; second, George Ladd; third, Charles S. Knight.

Ladies' Competition—First, Miss Gertrude Morris; second and third, Miss Isabel McClue and Miss Elizabeth Knight, a tie. The prizes for the contest were given by President Carnahan and Peter Benson. Another competition will be held the latter part of the month at the links and ladies and gentlemen wishing to take part are requested to hand their names to the secretary, J. P. Fraser. The lady and gentleman making the full round in the least number of strokes will win the prizes.

COLLIDE ON CURVE

PASSENGER TRAINS MEET ON THE MONON TRACK.

BOTH ENGINES ARE SMASHED

THREE MEN HURT AT MONTICELLO SUNDAY.

HAPPENINGS IN HOOSIERDOM

GENERAL NEWS OF THE STATE OF INDIANA.

Monticello, Ind., Oct. 8.—Passenger trains Nos. 33 and 35 on the Monon came together in a head-on collision on the curve south of this place at 2 o'clock yesterday afternoon. Three persons were injured. The injured: James Covington, engineer of train 35, of Indianapolis. Laz Noble, of Indianapolis. Marvin R. Maxwell, of Indianapolis.

The engines were buried in each other and the baggage cars were badly damaged. The crews of both trains jumped. Engineer Covington was picked up unconscious, but later recovered and will be well soon. The others were considerably bruised and cut. The south-bound train was going slowly, having just left the station, and the north-bound train was slowing up for the station. Otherwise the collision would have resulted in heavy loss of life. No. 33, going south, had lost several minutes, but had made up the time at Monticello, and this evidently resulted in the confusion that gave both trains right of way and caused the wreck.

GOES TO AFRICAN MISSION.

Hartford City, Ind., Oct. 8.—Rev. Ella Groenendyke, a sister of Rev. Montgomery Groenendyke, of this city, has gone to the west coast of Africa as a missionary under the auspices of the woman's board of missions of the United Brethren church. She is sent to the Sierra Leone country, where the terrible massacre occurred two years ago. Rev. Miss Groenendyke has spent four years of her life as a missionary in Africa, and will superintend the reconstruction of the buildings which were destroyed at the time of the massacre.

THREE TIMES LEASED.

Logansport, Ind., Oct. 6.—J. D. Johnston has reopened the Johnston hotel, under his personal management. Two years ago he concluded to retire, and he leased the hotel to Richard Dugan, of Springfield, Ohio, who retired after conducting the hostelry for six months. A lease was then made to Jacob Ornat, of North Manchester, who retired within three months. Milton M. Spier, of New York city, was the third lessee. He spent considerable money in remodeling and decorating, and changed the name to the Grand Central. Eventually Johnston brought suit for unpaid rent, and Spier demurred, alleging that he had signed the lease under misrepresentation. The courts decided against him, and Mr. Johnston is again behind the desk, determined that the hotel shall regain its lost prestige.

A DIPHTHERITIC SCARE.

Huntington, Ind., Oct. 8.—This city is threatened with an epidemic of diphtheria. The first case was discovered two days ago, and two deaths have already occurred. Many children have been exposed, and it may be necessary to close at least one of the city schools. A number of homes have been quarantined.

CLOSED FOR ONE WEEK.

Delphi, Ind., Oct. 8.—The Delphi schools were today ordered closed for one week, on account of a diphtheritic scare. One death has resulted from the disease and there are several other cases.

FEDERATION OF CLUBS.

South Bend, Ind., Oct. 8.—The Indiana Federation of Women's clubs will hold sessions in this city on the 14th and 15th of November, over which Mrs. Rebecca D. Lowen will preside. Each club in the federation not in arrears can be represented by two delegates. All women's clubs in the state not members of the federation are urged to send visitors.

DROWNED IN THE WELL.

Geneva, Ind., Oct. 8.—James McMullen, Jr., son of a well-known farmer, near this place, drowned himself while delirious, the result of typhoid fever. During the temporary absence of his nurse, he sprang from his bed and ran out of the room, going immediately to the family well, which was not far from the house,

and leaping into water, thirty-five feet below. He was drowned before anything could be done in relief. Miller weighed over 220 pounds and the task of recovering his body was not an easy one. He was a young man of unusual brilliancy.

DISAPPOINTED IN LOVE.

Geneva, Ind., Oct. 8.—Mary A. Pickett, seventeen years old, attempted suicide with rat poison, but her life was saved. A few months ago she was declared of unsound mind, but before she could be received in the Eastern Indiana hospital it was thought that she had fully recovered. Disappointment in love is thought to be the cause of her mental impairment. She is plaintiff in a breach of promise case filed in the Jay circuit court about three months ago, in which Thurman Huey, who is now married, is defendant.

CHICAGO BOARD OF TRADE IS BACK OF IT.

Made Good by Means to Control the Quotations.

New York, Oct. 6.—A certificate of incorporation of the Exchange Telegraph company has been filed with the county clerk of Hudson county, N. J., and with the secretary of state at Trenton. The authorized capital stock is \$5,000,000, divided into 50,000 shares of \$100 each. The objects of the company are to acquire by purchase or lease and to operate throughout the United States a system of telegraph and telephone wires, to conduct the business of transmitting messages by telegraph and telephone and transmit and sell market and all kinds of news, to operate tickers and like instruments for the prompt transmission of all market quotations and other news; also, to lease to other companies wires and to conduct in the cities and villages of the United States a general messenger service; also, to manufacture and sell electrical power and do a general telegraph and telephone business.

The Exchange Telegraph company is an incorporation effected by the members of the board of trade of Chicago and other cities to build and operate board of trade lines. The company is organized because of a recent contest between the Postal and Western Union Telegraph companies, growing out of the quotations of the Chicago board of trade to bucket shops.

A SPLENDID PROGRAM.

At Library hall on Saturday evening a fine musical program was given in connection with an oyster supper, under the auspices of the Ladies' Auxiliary to the A. O. H. The spacious dining room was well filled and financially the affair was very successful. During the evening Miss Alice Ryan favored the audience with three very popular vocal numbers and was loudly applauded. Miss Ryan has a voice of exquisite sweetness, reaching the high notes with perfect ease, never failing to charm her hearers. "The Huskin' Bee," one of J. Whitcomb Riley's productions, was recited by Miss Nellie Nolan, who did not fail to elicit the attention and admiration of those present. Mrs. McLaughlin, ex-president of the order, then sang two songs, one of which was an Irish ballad, entitled, "Crueskin Lawn." Both were well received, and the singer was warmly applauded. Near the conclusion of the program Miss E. Gertrude Green was introduced. Miss Green is one of Fort Wayne's popular and talented young ladies, having recently returned from Boston, where she has been engaged in the study of elocution. She gave three selections, one from Whittier's "Snowbound," the second from Oliver Wendell Holmes, entitled, "Aunt Tabatha," and the third, some humorous stanzas, styled "True Philosophy." Miss Green possesses a pleasing and well-trained voice, great power of expression and distinctness of enunciation. The various scenes embodied in the selections were perfectly delineated and the appreciative audience was loud in its praise. The committee of arrangements was composed of Mrs. Byrnes, president; Mesdames McLaughlin, McDennis, Logan, Cody and Hogan, assisted by other members of the organization, who spared neither time nor energy to make the affair a success.

DRYING PREPARATIONS simply develop dry catarrh, they dry up the secretions which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. All druggists sell it at 50 cents or it will be mailed by Ely Brothers, 56 Warren St. N. Y.

President Mitchell Calls a Convention to Discuss Issue of Higher Wages.

STRIKERS TO DECIDE COURSE

Shenandoah, Pa., Oct. 8.—President Mitchell at 10:05 a. m. issued a call for a convention of mine workers of the three districts comprising the anthracite field to meet in Scranton, Pa., on Friday next.

The text of the convention call is as follows:

"Temporary Headquarters United Mine Workers, Hazleton, Pa., Oct. 8.—To All Miners and Mine Employees of the Anthracite Region: Brothers—In view of the fact that the mine operators have posted notices offering an advance in wages formerly paid, and believing it to be our plain duty to consult your wishes as to our future action, we deem it advisable to ask you to select delegates to represent you in convention.

"You are therefore notified that a convention will be held at Scranton, Pa., beginning Friday, Oct. 12, at 10 a. m.

"The basis of representation will be one vote for each 100 persons on strike; or, if desired, one delegate may represent as many as 500 mine workers; but no delegate will be allowed to cast more than five votes.

"Each delegate should have credentials signed by the chairman and secretary of the meeting at which he is elected. Whenever possible credentials should bear the seal of the local union.

"John Mitchell,
"President United Mine Workers of America;

"T. D. Nicholas,
"President District No. 1,
"Thomas Duffy,
"President District No. 7,
"John Fahy,
"President District No. 9."

"N. E.—Delegates will be notified of the hall in which the convention will be held upon their arrival in Scranton."

After the call had been issued it was learned that the convention will be held in Cass Music hall.

MITCHELL WILL NOT TALK.

Hazleton, Pa., Oct. 8.—President Mitchell refused to say anything as to what the convention would probably do in the matter of the 10 per cent. net increase.

Neither would he hint what business other than that relating to the advance in wages would be brought before the delegates.

It is not unlikely that the abolishment of the sliding scale will come in for some consideration. None of the labor leaders will say what business will come before the convention.

Now that the convention is a certainty there is a feeling of relief in the entire region and it is confidently expected that a week from today will see the mine workers going back to the mines.

President Mitchell will call the convention to order and will preside over its sessions. The secretaries will be selected by the delegates, and it is almost certain that the convention will vote that all of its sessions shall be held in secret. In the meantime the labor leaders say their efforts to close up the mines still in operation will go on.

Notices of 10 per cent. advance in wages and a reduction in the price of powder were posted this morning by M. S. Kemmerer & Co., operating the Sandy Run colliery, and Cox & Bros. & Co., operating six collieries. The notices are similar to those put up by the other companies last week.

G. B. Marville & Co., Calvin Fardeau & Co., Dodson & Co. and the Silver Brooks Coal company are the only companies hereabouts that have not yet offered their men an increase. These four concerns normally employ upwards of 4,000 men.

AD STRIKE . . . N. N. . . .

AFRAID OF MARCHERS.

Hazleton, Pa., Oct. 8.—In anticipation of marching by the strikers this morning everyone of the dozen or more collieries in this district still in operation in a more or less crippled condition was virtually an

armed camp during the night, but the expected did not happen and the peace of the community remains undisturbed.

It was the unseasonable morning that Hazleton has experienced since the strike began three weeks ago today.

In addition to the concentration of sheriff's deputies in this city last evening every colliery in the region had extra forces of coal and iron police fully armed. There was no marching of large bodies of men, but crowds of strikers gathered as in their custom every week day morning in the vicinity of the various collieries that remain in operation. The greatest crowd, which numbered probably 300 men, assembled in the neighborhood of Cranberry colliery of A. Pardee & Co. on the outskirts of this city. Quite a number of the workmen on their way to this mine were turned back, some through fear and others through persuasion. The company officials said the colliery is working as usual today.

Another crowd gathered in the vicinity of No. 3 slope and No. 40 shaft of the Lehigh Valley Coal company in Hazleton, but no disturbance occurred.

The inclement weather probably had much to do with the pacific condition of affairs. It rained hard during the night and a heavy mist hangs over the entire region today.

WILL SEND TROOPS HOME.

Shenandoah, Pa., Oct. 8.—General Gobin, in command of the troops here, said today that he had informed Sheriff Toole, of Schuylkill county, of his intention to withdraw the remainder of his troops by tomorrow if favorable weather prevails.

Edward J. Coyle, who died on Friday from the effects of a bullet wound received during the riot of September 21, was buried today. The funeral was attended by all the local mine workers' unions and the three fire companies.

Mr. Coyle was not a participant in the riot. He was struck by a stray bullet.

NOT A COLLIERY WORKING.

Shamokin, Pa., Oct. 8.—Not a colliery in this region opened work today. It was expected that some of the men would report at North Franklin colliery, Treverton, which was closed down Friday, but not a miner appeared for work at the regular starting time.

Pea and chestnut coal is being prepared for market at the Cameron colliery, the coal being taken from the culm bank.

Strikers are endeavoring to induce the few men at the mine to refuse to do their work and there may be a march to enforce the request.

ALL THE MINERS ARE OUT.

Harrisburg, Pa., Oct. 8.—There is no change in the strike situation in the Lykens valley. The 1,200 mine employees at Lykens and Wisconsin are still out and their leaders say they will not go back until the strike is declared off.

The Williamstown colliery is working full time with nearly 1,300 men and boys on the rolls. The organizers of the Mine Workers' union have abandoned hope of organizing a union at Williamstown and they have left town. The employees of this colliery have been working steadily for many years and they have refused to have anything to do with the union or the strike.

Both collieries are controlled by the Pennsylvania Railroad company.

TROUBLE IS EXPECTED.

Harrisburg, Pa., Oct. 8.—Sheriff Helff, of Dauphin county, was summoned to Williamstown today by the borough authorities to prepare for a probable conflict between the strikers and non-strikers in the Lykens valley region. The union leaders claimed to have secured the signatures of 611 mine employees at Williamstown to an agreement to join the

strikers and become members of the union.

A public meeting will be held tonight at Williamstown, at which an effort will be made to induce the 1,200 employees at the colliery to quit work. Sheriff Helff telephoned at noon from Williamstown that all was quiet and that he was prepared for any trouble which may arise.

The organizers of the mine workers' union have been working quietly among the Williamstown men ever since the 1,200 employees at Lykens and Wisconsin went out.

The Lykens and Williamstown collieries are controlled by the Pennsylvania railroad.

RECEIVER FOR SILK MILLS.

Watertown, N. Y., Oct. 8.—Robert Lansing, of this city, has been appointed receiver of the Elwood Silk company, which plant is located in this city. This is the first step toward the dissolution of the company, which is practically insolvent. The assets are \$112,280 and the debts \$83,132. The principal stockholders are Ellsworth Elwood, Byron H. Elwood and E. S. Vandusen. The company was formerly located at West Plain, N. Y.

NINE PERSONS ARE KILLED

LATEST REPORT OF TORNADO

AT BIWABIK, MINN.

Many Others Injured—Locomotives

Lifted From the Tracks and

Reduced to Scrap Iron.

Biwabik, Minn., Oct. 8.—The tornado which raged in this vicinity Saturday evening was the most violent ever experienced hereabouts.

The storm cut a pathway 150 feet in width through the northwestern corner of this town, completely wrecking the buildings struck. The shaft houses and buildings of three mines, which stood in the path of the storm, were reduced to kindling wood. The property loss is estimated at from \$75,000 to \$100,000, and the known fatalities number nine, with a score or more injured—some severely, others only slightly.

The storm swept in a northwesterly direction after leaving here and struck a little Finnish settlement near Pike lake, where a number of buildings were wrecked, in one of which an entire family, consisting of husband, wife and four children, were instantly killed. It is believed that when the more remote districts are heard from further casualties may be reported.

The engine house of the Duluth, Mesaba and Northern railroad was completely wrecked and a number of locomotives and cars were shifted from the tracks and pounded into scrap iron.

The engine on which Murray and Anderson were when the storm broke was blown from the track and the men were plumed beneath it and horribly burned by the escaping steam. Other men at work near them had narrow escapes. Several cars blown from the Duluth, Mesaba and Northern tracks were found in the Duluth mine pit, hundreds of feet away.

MINISTERIAL ELECTIONS.

London, Oct. 8.—3 p. m.—There is polling today in twenty-one constituencies. The election results announced this morning leave the party gains unchanged. The Right Hon. Charles H. Campbell, formerly solicitor general for Ireland, retains his seat for North Tyrone, but by a reduced majority. Thomas J. Healy, Irish nationalist, has been defeated in the polling at North Wexford by Sir Thomas H. G. Esmond, Irish nationalist. The total number of members of parliament elected up to this hour is 487, as follows: Ministerialists, 325; opposition, 162. The latest political gossip is that the earl of Dudley, who is now serving in the yeomanry cavalry in South Africa, will replace Lord Cadogan as lord lieutenant of Ireland.

BOARD IS ORGANIZED.

Secretary W. J. Hess, of the local civil service board, has returned from Warsaw, where on Saturday he held an examination for clerk and carrier and organized a civil service board in that city. Margaret Nelson will be secretary, LeRoy Bartlow chairman and the third member is to be chosen from among the carriers. There were twenty-five applications for the two carriers' positions.

The viewers have filed with the board of commissioners a favorable report on the Munich road in Monroe township, awarding some damages.

AT HIS OLD HOME

WILLIAM J. BRYAN SPEAKS TO OLD NEIGHBORS.

BEGINS THE DAY AT SALEM

AN ADDRESS THAT WAS FULL OF FEELING.

WARNS AGAINST CORRUPTION

TRUSTS AND OTHER ISSUES ARE PRESENTED.

Salem, Ill., Oct. 8.—William J. Bryan began his week's work with a speech early today in this city, his former home. Friends, many of whom had known Mr. Bryan from boyhood, gave him a marked reception. Since yesterday visitors had been coming in from surrounding towns.

Mr. Bryan began his speech at 7 o'clock and talked nearly an hour.

He spoke near the court house in which his father held court from 1860 to 1872, and in which the candidate made his first public speech twenty years ago. He referred to his boyhood days and friends with much feeling. Mr. Bryan said in part:

"If I wanted to declare myself a great man this is the last place I would come to make such a declaration, because you have known me from my boyhood, but if any one wanted to declare that I was a bad man I want him to make the declaration here rather than any place else."

"I hardly feel like making a political speech here, for this is a sacred spot to me. Here my parents are buried, and here I learned the precepts which I have tried to follow. I know the people here and know how conscientious they are."

"When I see the picture of my opponent in the windows of the republicans I know how conscientious they must be and how certain they are that my election would be injurious to the country, or they would not exhibit the pictures upon the occasion of my return to my birthplace."

"It is to these republicans that I desire to appeal. When I return to Salem I find vacant chairs. I find that since my last visit republicans and democrats have passed away; and they have been crossing over into the land where differences in politics do not divide them."

"I wonder if it is not possible for us to so understand the issues that there will be less division here."

Mr. Bryan told of the success of the meetings at the other places visited by him, and the enthusiasm with which he has been received.

"If the election were held today," he said, "there is no doubt that we would have a majority in the electoral college and the popular vote. But the republican managers are now collecting from the monopolies a large campaign fund. They will buy every vote that can be bought. They will coerce every vote that can be coerced. They will intimidate every laboring man who can be intimidated. They will bribe every election judge that can be bribed. They will corrupt every court that can be corrupted. I do not understand how it is possible for the plain, every-day republican to close his eyes to what is going on when he knows that if he aids this influence to carry the election at this time, the same means can be employed to carry other elections, when those who are supporting the republican ticket today will be opposing the republican ticket."

Mr. Bryan concluded his speech with an argument on the trust question, on militarism and imperialism. He left Salem shortly after 8 o'clock and made ten minute speeches at Mount Vernon and Benton. At these places he was received by large audiences. His speeches were along the same general lines as those delivered heretofore.

NEAR DEATH'S DOOR.

Paul Guiff, a pioneer farmer, is critically ill at his home near Aendale, and it is feared his death can not be long delayed. Mr. Guiff is sixty-nine years of age, and suffers from heart trouble. His children have been summoned to his bedside.

MISSED FORTY DOLLARS.

Sunday evening a stranger visited the Home restaurant and purchased two dishes of oysters, which he disposed of and settled for. At the time Police Captain Whitney was in the restaurant. The stranger started out and then turned around and complained that he had been robbed of \$40. He was quite positive he lost the money in the restaurant and left, finally asserting that he was getting the worst of it. In a few moments he returned and begged the pardon of Fred Kimball and others in the place explaining that he found the money in his overcoat pocket.

YOUTSEY JURY COMPLETED.

Georgetown, Ky., Oct. 8.—A jury was completed today to try Henry Youtsey on the charge of being a principal in the shooting of Governor Goebel. The talesmen were sworn and commonwealth Attorney Bradley proceeded with the opening statement.

HIS HORSE MISSING.

William Nichols, a well known farmer, reported to the police that his horse and buggy had been taken from the place where he had tied the animal when he arrived in the city. He went home without the rig, expecting to find it there, but reports today that the outfit is still missing. The police fear it may have been stolen.

WILL TAKE PLAN UP HIGHER

BUSINESS MEN CONFER WITH

MANAGER SCOTT.

Matter of Interurban Railroads to be Referred to Traction Company Directors.

Saturday a committee of Fort Wayne business men held a conference with Manager Scott, of the Fort Wayne Traction company, regarding the matter of interurban electric railroads for Fort Wayne. The visit of the business men was in accordance with the decision reached at a meeting one day last week, and the committee was made up of Messrs. H. C. Paul, S. M. Foster and E. V. Culbertson.

After a canvass of the situation many business men are of the opinion that if the city is ever to secure the interurban lines it will be through the efforts of the traction company, which is in a position, with facilities and equipment, to build and operate the lines under much more advantageous conditions than could a new company. It is emphasized that the traction company is not now asking any concessions of this nature, nor making a move in the direction of interurban lines, the effort being solely upon the part of the citizens of Fort Wayne, who believe this to be the only solution of the problem.

At their visit of Saturday the committee made its suggestions to Manager Scott, who announced his intention of referring the matter to the directors of the traction company, though he could give no assurance of their position in the matter or of the decision they might reach. This morning another party of business men visited Mr. Scott on a similar mission, and the reply of the directors will be transmitted to the gentlemen as soon as it is received.

HAS NEW AGENCY.

Louis Mohr, who has been on the road in the interest of the Domestic Sewing Machine company for several months, has purchased of the Meyer Cycle company the Domestic sewing machine agency in this city and is again at his old stand, on West Wayne street. The Meyer Brothers retain their bicycle store and will continue in that line of trade.

SUPREME COURT CONVENES.

Washington, Oct. 8.—The United States supreme court convened at noon today, Mr. Justice Gray and Mr. Justice McKenna being absent. No motions except for admission to practice were entertained. The docket will be called tomorrow.

POLICE COURT.

There was a varied assortment of prisoners in police court this morning. Two of the prisoners were women who had been arrested for drunkenness, and the others were men charged with vagrancy and intoxication. Edward Johnson, arrested by Sergeant Stevens, and John Morgan, arrested by Officer Paul on Sunday for intoxication were fined \$10 and costs each. Edward Davis and Albert Cramer, vagrants, arrested by Sergeant Stevens and Detective Cough, were fined and costed \$16 each. Fanny Shoup, who has had several experiences in police court, was fined and costed \$36 for drunkenness, while Grace Sencroft was fined \$21 for getting drunk on Sunday. Officer Knack arrested both women.

THE FORTS PARCELED.

St. Petersburg, Oct. 8.—Admiral Alixiev, in reporting the occupation of Shan-Hai-Kuan, on the Gulf of Liao-Tung, says:

"In accordance with an agreement of the admirals, the forts have been divided among the different nations. The town has not been occupied, but the gates are guarded by artillery. The forts are nearly intact and the whole route from Pong-Ken to Shan-Hai-Kuan is now occupied by the Russians."

"After the occupation of Shan-Hai-Kuan the admirals refused to further participate in the operations. Part of the Russian force is advancing northwards."

EVELETH, MINN.

Several Thousand Pounds Told

Off—Town Badly Shattered and

About 200 Persons Injured.

Duluth, Minn., Oct. 8.—A special from Eveleth, Minn., reports one of the greatest explosions ever occurring in the state. Seven thousand, five hundred pounds of dynamite in the powder magazine at the Spruce mine, about half a mile from town, blew up about 5:30 o'clock yesterday afternoon. A hole one hundred feet square and twenty feet deep marks the spot where the magazine stood. The force of the explosion was so great that there is not a piece of glass over a foot square within a radius of two miles of the mine. Practically every window and mirror in Eveleth was broken, while in saw-logs all bottled goods were demolished in addition. The loss in the city is estimated at \$30,000. The damage done to the Spruce mine was about \$3,000, the mine, laboratory and warehouse being wrecked.

At least two hundred people were hurt more or less from being thrown down by the shock or hit by shattered glass. The explosion was plainly felt at Biwabik, twelve miles distant. The cause of the explosion is hard to ascertain. An unknown man was seen near the magazine a few minutes before it occurred, and it is believed that he was responsible, although that is pure guess work. At any rate, the fellow has not been seen since.

HAZING AT ANNAPOLIS.

Annapolis, Md., Oct. 8.—The investigation of the hazing of the fourth class men, or the latest cadets admitted to the navy academy, by upper class men will begin today. Superintendent Wainwright has appointed a court of inquiry, and its investigations may lead to a court martial. The cadets implicated are M. G. Cook, of Kansas, first class man; John Strong Abbott, of Wisconsin, third class man, and W. P. Reid, of Arizona, third class man. Cadet Cook is alleged to have been present when fourth class man J. F. Dorchet, of Alabama, was required to stand on his head when a first class man should have stopped the hazing. Lieutenant C. S. Bookwalter, while on an inspection, caught the cadet in the room of Cadet Abbott, one of the accused, and found the first class man present.

A DEEP LAID PLOT

TO SWINDLE INSURANCE COMPANIES IS UNEARTHED.

THREE MEN UNDER ARREST

MISS MARIE DEFENBACH, THE INSURED, DIES IN AGONY.

MURDER IS NOW SUSPECTED

POLICIES FOR \$12,000 ARE WAITING PAYMENT.

Chicago, Oct. 8.—With insurance upon her life amounting to \$12,000, Marie Defenbach, aged twenty-three, died August 25 in a boarding house on LaSalle avenue under conditions which the police believe indicate a plot to swindle an insurance company and two insurance societies, if they do not point to murder.

Upon search warrants issued by Judge Gibbons, three persons said to be implicated in the case—Dr. August M. Unger, Frank H. Smiley and F. Wayland Brown have been arrested. The latter is assistant manager of a detective agency. He was arrested today on his return from Virginia.

When Miss Defenbach died there were three policies on her life aggregating \$12,000, all of recent date, as follows:

New York Life Insurance company, \$5,000; Canadian Order of Foresters, \$5,000; Knights and Ladies of Honor, \$2,000.

The alleged conspiracy has been investigated with searching care by a private detective agency, by the attorneys and detectives of the insurance companies and later by the state's attorney himself.

Sunday, at a meeting between States Attorney Bennett and Assistant Attorney McEwen on one side, and the attorneys representing the insurance companies and detective agency on the other, the case was discussed and it was decided to cause the immediate arrest of the suspects.

The detectives believe that a conspiracy was concocted and that Miss Defenbach was originally one of the quartet of alleged conspirators. She had expected that her death was to be feigned; that another body was to play the passive role of her corpse, instead of that real death came to her.

Last April Miss Defenbach applied to the New York Life Insurance company for a \$10,000 policy. This was refused by the company, as was also an application for an \$8,000 policy on the ground that she was not possessed of sufficient property interests to warrant so large a risk, although she was examined and declared to be in perfect health.

In July Miss Defenbach succeeded in obtaining from the New York company a policy for \$5,000 and this formed part of the estate she left.

About the middle of August Miss Defenbach also secured insurance in the Canadian Order of Foresters to the amount of \$5,000. About the same time she took out a policy in the Knights and Ladies of Honor for \$2,000. Two weeks later she was dead, leaving a will which directed that a part of the policies should be paid to Frank H. Smiley, her "affiliated husband," and that her body be cremated.

Her death, at a boarding house in LaSalle avenue, was attended by the most horrible agony. Drs. Leonard and Schroeder, the latter physician representing the Knights and Ladies of Honor, were called. They refused to issue a certificate of death, but the coroner's jury later, and after the body had been embalmed, found a verdict of death from dysentery. The next day the body was cremated and the ashes were scattered to the winds.

Without much delay proceedings were begun to recover the value of the insurance policies Miss Defenbach had left. Owing to the unusual circumstances surrounding her demise, the hurried embalming of the body, followed the next day by cremation, payments of the policies were refused and immediate steps were taken to trace the woman's career during the last few months of her life.

An unusual incident was connected with the making of Miss Defenbach's will. On August 21 Miss Defenbach called at the office of a lawyer in the Unity building named Johnson and told him she wanted to make her will.

Some days earlier Dr. Unger had, it is stated, told this lawyer a woman would call on him for this purpose, and she announced she had come in accordance with the appointment. She told Mr. Johnson she wanted to leave her property to Frank H. Smiley, her affianced husband, and then she went away. Two days afterward she returned and Mr. Johnson had the will ready. It provided, as she had instructed, that after her debts were paid her property was to go to Smiley, but she then wanted another provision inserted.

It was that after her death her body be cremated.

This somewhat surprised Mr. Johnson, as he could not understand how a young and handsome woman would wish her body cremated after death, but he complied with the request.

He was so struck with the circumstance, however, as the cremation clause had not been in the original instructions, that he called in witnesses from adjoining offices as a matter of protection. Miss Defenbach then signed and executed the document. Two days later she was dead.

PAYMENT NOT RESISTED.

New York, Oct. 8.—George W. Hubbard, attorney for the New York Life Insurance company, said today that the company had issued a policy for \$5,000 to Marie Defenbach a short time ago. They had been notified of the death of Miss Defenbach, but have not resisted paying the amount of the policy, as no claim has yet been made for the money.

When asked whether it was usual for the company to investigate all deaths, or if this was an exceptional case, and if such, why? Mr. Hubbard replied:

"No; under ordinary circumstances we do not investigate, but in a case like this, where policies from a number of companies had been issued so short a time before death, I suppose this would be done as a matter of safety. However, I am without information and am not prepared to discuss the matter in detail."

CAPTURE OF AMERICANS.

(Copyrighted, 1890, The Associated Press.) Manila, Oct. 5, via Hong Kong, Oct. 8.—The report of the capture of about sixty men of the Twenty-ninth Infantry on Marinduque Island is confirmed through communications from MacArthur and Kempff from Marinduque Island, but details are lacking.

The Yorktown's relief column landed at Tortugas on the Marinduque coast, and marched to Santa Cruz, which was the proposed route of the captured party, without encountering the enemy or learning anything definite regarding the captives except that they had entirely disappeared.

Marinduque is a small island within forty miles of Luzon. It is possible that the rebels have conveyed the captives to Luzon.

EQUAL TO ELECTRIC LIGHT.

"Kerosene oil can only be used to produce a light equal to electricity by exploding it with air under compression in a cylinder for less cost than the same volume of light can be produced through the medium of the house lamp," said Engineer John A. Secor in a lecture before the New York Railroad club last evening. "This is another monument along the line of progress."

"The earth," continued Mr. Secor, "has yielded up millions of tons of coal to furnish power, and when we look at the enormous waste of this most valuable of nature's gifts we cannot feel that we have done well, for we have lost not less than 93 per cent of its value as measured by heat units. This extravagant waste has caused engineers to seek a better means of using our thermal powers. We can now turn coal into gas, using gas direct in the cylinder of the engine without the use of the boiler and its attendant evils and with less loss, but still we have only exchanged the boiler plant for the gas plant. But petroleum oil, which is produced by billions of gallons and furnishes, in its distillation, 85 per cent of what is known as kerosene oil, may be used directly in the cylinder of the engine, to drive machinery, automobiles, boats, to light and ventilate our homes and for all purposes where power is needed. Its thermo dynamic value is greater than any known liquid fuel."—Philadelphia Medical Journal.

THE COURT NEWS.

FIRST JURY TRIAL IN NEW COURT HOUSE.

NAMES OF TWELVE JURYMEN

JUDGE VESEY GRANTED MRS. M'COY DIVORCE.

BUSINESS IN CIRCUIT COURT

JUDGE O'ROURKE DISPOSES OF PROBATE MATTERS.

Judge Vesey this morning presided at the first jury trial in the magnificent new court house. The case is a replevin suit in which Hannan Wilson is plaintiff and George A. Wilson defendant. H. I. Smith is attorney for plaintiff and Wilmer Leonard and T. J. Logan appeared for the defendant. The jury is composed of the following well known Allen county citizens, who can tell their posterity that they sat on the first jury that tried a case in the court house: Martin Denzel, Levi Dreisbach, J. M. Keyser, Herman Gerke, John Fry, James Pearson, Barney Roth, Daniel Meyers, Magnus Roebach, Jr., Howard Wolf, Barney Tibbitts, Jacob Bastian.

GIVEN A DIVORCE.

In the superior court Judge Vesey heard evidence in the divorce proceedings of Elizabeth McCoy vs. Charles McCoy, in which the plaintiff alleged cruel and inhuman treatment. Judge Vesey at one time was inclined not to grant the decree but additional evidence was introduced as to the husband's treatment of the plaintiff and the wife was given a divorce. She was also given the custody of three children, a daughter aged 18 and two sons, aged respectively 14 and 12 years.

NOTES.

Fred E. Zollars, for defendant, filed a motion for a new trial in the case of Kiser vs. Furge, which was tried in the superior court.

The will of the late William Hageman has been filed for probate in the circuit court. The property of Mr. Hageman is left to the widow, during her life to dispose of it as she so desires and at her death \$10 goes to a son, Gottlieb, and the balance is divided into nine shares and goes to the other children, step-children and grandchildren.

The county clerk has received notice that Charles Lewis, who was sent to the Indiana reformatory in 1896, has been discharged.

Charles H. Titus, administrator of the estate of Louise Titus, deceased, reports the sale of decedent's real estate. The sale was confirmed and deed ordered.

The case of the state ex. rel. John H. Brannan vs. Samuel E. Alden et al., has been set for trial November 23 before a jury.

The case in re-application for guardianship of Regina Gable has been set for hearing October 29.

The appeal of Comedery Hickman, who was refused a license by the county commissioners, has been set for trial October 27.

Judge O'Rourke has declared Miram Dingman to be of sound mind and capable of managing his own estate.

Cloyd Clawson, now residing at Columbia City, but who formerly lived here, this morning began suit in the Whitley circuit court against Samuel J. Peabody for the sum of \$10,000. Mr. Clawson was until recently an employee in the Peabody saw mill at Columbia City, but in September he lost his right arm in the mill and he alleges negligence on the part of the milling company. Attorney George W. Felts of this city, filed the complaint.

Citizens of Monroeville have filed with the board of commissioners a petition praying for the annexation of certain territory contiguous to the town.

The case of Warmuth vs. Essinger, filed in the superior court has been dismissed.

Mary E. Christie has filed a final report as guardian of Juvenile Brinkman.

Samuel Seibold, guardian of Carrie Shoup, et al., has filed his final report.

It is said that the Canadian Soo

canal may be closed for lack of patronage. Vessel men say this would be a bad move, for in case of accident in the American canal there would be a blockade. They say that they will use the Canadian passage more in future that it may be maintained.

SAN CHUEN NOW QUIET.

Hong Kong, Oct. 8.—The town of San-Chuen is quiet this morning and the stores have reopened. The rebels who attacked Sai-Wnn, near San-Chuen, Saturday are believed to belong to the force of triads which is proceeding westward, levying blackmail and recruiting. The missions in the hinterland are safe.

ON THE WRONG END.

Though hazing is under the ban at West Point there are one or two forms of humiliation to which the "plebes," as the new comers are called, are always subjected. One is that during their first year at the academy, their title is "Mr. So and So," never being allowed to mention their names without the prefix. Another is that every sentence addressed to one of the older cadets must end with a "sir."

An amusing anecdote is told in the New York Tribune of a raw country lad who reported at West Point a few years ago, concerning the use of the word "sir." When the new cadets report at the academy they first visit the adjutant's office, where they deposit their credentials and give information concerning their parents or guardians and their former careers. Next they visit the treasurer's office and deposit what money they may have with them, and then they go to the barracks, where they report to the cadet officer in charge of their instruction. It is here that they receive their first taste of military discipline. Well, this young man passed through the preliminaries, finally reaching the barracks, and, after several attempts to enter the office in a military manner and to the satisfaction of the austere lieutenant in charge, he was asked by that functionary what his name was. "John Smith," answered the lad. "Suppose you put a 'sir' on that!" cried the cadet officer, forgetting for the moment in his assumed wrath the equally heinous omission of the "Mr."

"Sir John Smith," innocently replied the plebe, and supposed he had obeyed to the letter his superior's injunction. For the next few minutes that poor plebe's life was a burden to him, for all the cadets about the room at once began "crawling" him for his supposed attempt at facetiousness. The name "Sir John" stuck to him throughout his entire career at the academy, and even followed him into the army.

MANY ELECTION AYS.

The designation of the day for holding the presidential election is left to congress. The first act passed by it relating to that subject was in 1792. It provided that presidential electors should be appointed "within thirty-four days before the first Wednesday in December." This left each state free to select a day to suit itself within those limits. Pennsylvania chose electors on the last Friday in October. Other states elected theirs on different days between the beginning and middle of November.

When Harrison was elected in 1840 the democrats asserted that his success was due partly to fraudulent voting, which was made possible by the lack of a definite election day. It was alleged that Kentucky and Ohio whigs had voted in both states, the election being held on different days. So in 1845 the democrats passed the law now on the statute books making the first Tuesday after the first Monday election day.

At that time but five of the twenty-six states held their state elections in November. In Michigan and Mississippi voting was carried on through two days—the first Monday and the following Tuesday. New York had three election days—the first Monday, Tuesday and Wednesday—but had finally confined voting to the middle day, or the first Tuesday after the first Monday. Massachusetts chose state officers on the second Monday in November, and Delaware on the second Tuesday. So congress selected the first Tuesday after the first Monday to consult the conveniences of three states out of five, one of the three being the important state of New York.—Kansas City Journal.

PLANT TO PLANT BULBS.

The proper time for making a bulb garden is during September and October. It is true that bulbs planted as late as November often do well, but as a general thing it is not safe to defer the work so long. The object of putting them out before the coming of cold weather is to allow them to form roots before the closing of the season. Early planted bulbs will do this in fall and be ready for spring flowering as soon as the frost is out of the ground, but late planted ones will have their efforts in this direction checked midway in their accomplishment, and when spring comes they will be obliged to go on and complete the work begun in fall before they can produce good flowers. As a general thing, however, the completion of this work goes on under disadvantages. The influence of warm air and bright sunshine will excite top growth of the plants before their root development is complete, and the result will be inferior flowers. The growth of root and top cannot go on satisfactorily at the same time in newly set bulbs. Therefore, arrange to put out your plants early enough in the fall to afford them ample time to establish themselves before winter comes. There is also another reason for doing this. Bulbs lose vitality rapidly while out of the ground. The sooner they can be planted the better.—Harper's Bazar.

JAPAN HANDICAPPED.

The Japan tea trade is under a great disadvantage, compared with the China trade. In China the tea is burned, cured and packed in the gardens and when it reaches the port it is ready for shipment. In Japan, on the contrary, the tea is brought down the rivers like so much hay, and the merchants have to do the burning, curing and packing themselves. Land is expensive, yet large premises are required; hundreds of coolies must be employed to watch the tea while it is burning, and within the last three years packing materials—wood, lead

and charcoal—have risen in price. In China these items do not interest the merchant.—New York Tribune.

CHILDREN MAKE LACES.

Few people know that most of the imported laces are made by peasants and the little children of charitable institutions. Lace schools have been founded on the outskirts of the larger cities; here each child is trained to do one particular stitch, either on parchment or a black dotted paper, where the thread is carried from point to point, the pattern having been carefully traced previously, and when the entire pattern is covered this parchment can be torn away. These laces, when finished, are placed on the market, fabulous prices being paid for them.

While working on the highways at Melle, near Ghent, Belgium, recently the laborers employed in improving the road unearthed a quantity of human bones and bones of horses, together with ancient arms and cannon balls. There was a battle at Melle in 1745 between the French and English and it is supposed that the relics found there are of that date.

Rheumatism

Rheumatic pains are the cries of protest and distress from tortured muscles, aching joints and excited nerves. The blood has been poisoned by the accumulation of waste matter in the system, and can no longer supply the pure and health sustaining food they require. The whole system feels the effect of this acid poison; and until the blood has been purified and brought back to a healthy condition will the aches and pains cease.

Mrs. James Kell, of 709 Ninth street, N. E., Washington, D. C., writes as follows: "A few months ago I had an attack of Sciatic Rheumatism in my left leg. The attack was an unusually severe one, and my condition was very dangerous. I was attended by one of the most able doctors in Washington, who is also a member of the faculty of a leading medical college here. He told me to continue his prescription and I would get well. After having it filled twice I still was not receiving the slightest benefit. I decided to continue his treatment any longer. Having heard of S. S. S. (Swiss Specific) recommended for Rheumatism, I decided almost in despair to try it. I gave the medicine a trial, and after I had taken a few bottles I was able to hobble around on crutches, and very soon thereafter had no use for them at all. S. S. S. having cured me sound and well. All the distressing pains have left me, my appetite has returned, and I am happy to be again restored to perfect health."

SSS is the great vegetable purifier and tonic, is the ideal remedy in all rheumatic troubles. There are no opiates or minerals in it to disturb the digestion and lead to rummy habits. We have prepared a special book on Rheumatism which every sufferer from this painful disease should read. It is the most complete and interesting book of the kind in existence. It will be sent free to any one desiring it. Write our physicians fully and freely about your case. We make no charge for medical advice. THE SWISS SPECIFIC CO., ATLANTA, GA.

THE HOME OF JOAN OF ARC.

Just beyond the church is the home of Joan of Arc, an ugly building which has no charm in itself or in its surroundings, says Clifton Johnson in Frank Leslie's Popular Monthly. It looks more like a big shed than anything else, for the roof all slants one way from a very high wall at the front to a very low one at the back. The inside is kept as a museum, and it has all a museum's blankness and stiffness, with no suggestion of its ever having been occupied as a home. The old garden at the rear, with its narrow paths and little plots of flowers and vegetables, happily has about it a real touch of humanity, and you can fancy it is not unlike what it was in Joan's day, and the mind easily calls up the scene in those twilight hours long ago when the bells of the near church rang and the voices spoke to the humble shepherd maiden.

—BEGINS SIXTH YEAR.

Sunday marked the beginning of Rev. L. L. Benson's sixth year as pastor of the First Baptist church, and despite the inclement weather, his congregation was an unusually large one. The anniversary sermon had as its keynote "Work," divided under three heads—"Keep at Work," "Work Together," and "Work With God." Rev. Benson's pastorate has been uniformly successful and some idea of his work may be obtained when it is known that during the past five years he had admitted 439 members, married 96 couples and preached 146 funeral sermons.

HONORED MR. UNDERWOOD.

H. C. Underwood, president of the Jefferson club of this city, was prominent in the organization of the State Association of Democratic clubs formed at Indianapolis during the national convention. Mr. Underwood was made temporary chairman of the organization and he acquitted himself with honor. He has taken great and valuable interest in the organization of democratic clubs.

BOATED ON THE CANAL.

Mr. and Mrs. James P. Campbell have just celebrated their golden wedding anniversary at Corning, Adams county, Ind. They were married in Jasper county, Indiana, removing to Iowa in 1854. Mr. Campbell was born in Starke county, Ohio, July 23, 1825, and with his parents moved to Allen county, Ind., near Fort Wayne, where they lived on a farm, afterwards moving to Jasper county, this state. A portion of his boyhood years were spent boating on the old Wabash and Erie canal. Mrs. Campbell was born in Clark county, Ohio, November 5, 1830, and moved with her parents to Jasper county, Ind., a few days later.

HE IS A PIONEER.

Patrick O'Brien, of Huntington, is in the city to attend the funeral of his nephew, John O'Brien, and he will be remembered by many of the older citizens of this city. Years ago Mr. O'Brien followed the profession of civil engineering and was instrumental in the construction of the old canal and was for a time superintendent of the canal after it was in operation. Though past eighty years of age, Mr. O'Brien is remarkably well preserved and is still able to get about as energetically as most men many years younger.

GO TO CONFERENCE.

All the German Lutheran pastors in the city, together with the instructors at Concordia college, leave this evening for Logansport to attend a conference in that city Tuesday, Wednesday and Thursday.

Lieut. Richmond P. Hobson, hero of the Merrimack adventure, has obtained leave of absence from the navy department to receive treatment for impaired vision. This is sincerely to be regretted. Lieutenant Hobson proved himself a hero and notwithstanding the jibes his eccentric conduct has provoked is held in affectionate regard by the people of this country.

The Boston Post, moved by a republican newspaper's charge that Mr. Bryan is an "idealist," says that this is meant to be a reproach, and adds: "But if Mr. Bryan is an idealist he comes along just at the right time. What the country is suffering from at this moment is the reign of commercialism; what it needs is more idealism. Let us get back to the ideal of constitutional rights for all people under the Stars and Stripes; the ideal of freedom and self-government; the ideal of liberation, not subjugation; the ideal of a world of republics, not satrapies or subject colonies. If Mr. Bryan is an idealist he is the man for the crisis."

There is no known way of suppressing the rough and the rowdy from participation after his own fashion in politics. Thus happened it that Sunday in Chicago Governor Roosevelt was subjected to an ordeal of coarse, vicious and wanton insult at a church door where, as he was leaving at the close of worship, he was set upon by a pack of young hoodlums and made the target of the most scurrilous and obscene abuse. Epithets unfit to be printed were applied to this distinguished gentleman, governor of a great state and candidate for the second highest office in the land that would have been unspeakably shocking if leveled at the lowest of mankind. As his carriage was driven away mud and missiles were hurled at it and the air

was filled with oaths and vulgarity. It is not conceivable that this brutal attack was instigated by any person of character that can be held responsible, but it ought to be possible to identify the young scoundrels and visit upon them the severest punishment provided by law for such rowdyism. Such an attack would be bad enough under any circumstances, but when the time and place are remembered the atrocity of the offense is indeed multiplied.

THE WATER QUESTION.

The city council and the water works board are trying (at least we assume that they are trying) to get together on the question of the public water supply. It ought to be no very difficult matter to come to an agreement on some plan since the only requisites to such agreement are the employment of common sense and the pursuit of honest and disinterested motives. The solution of the problem is simple and compels attention to but two propositions, namely:

First—The public water supply of Fort Wayne should be pure.

Second—The public water supply of Fort Wayne should be abundant.

The only unquestionable source of a pure water supply in this territory is wells, the deeper the better. The water from the wells is pure, wholesome and wholly unobjectionable. This is particularly true of the rock wells. The gravel wells do not furnish the same quality of water, but they furnish a supply that is incalculably better than any water that Fort Wayne can procure from any other practicable source and better water than any other city gets from any different source. We cannot get good water except by relying on wells.

There is no doubt that all the water needed can be procured from wells. There is an inexhaustible reservoir of splendid water beneath the city. We can get all we want and more than we need by going into the earth for it. It may cost something to explore for it in order to determine just where wells will yield the most, but the water is beneath us and it can be had. The cost of exploration should weigh as nothing against the necessity of getting the water. It might cost \$10,000 and it might cost \$25,000 to satisfactorily determine just where the most abundant supply of deep well water can be obtained, but if it costs the sum of the two estimates or even more the result will be cheaply purchased, and the expense cheerfully borne by the people of this city.

Plenty of pure water can be provided the people of Fort Wayne and they will not be patient with any senseless, insincere and exasperating plea of economy. Let cheese-paring economy be practiced where, even if not prudent, it at least is harmless. Any program that does not contemplate the prompt settlement of this water question as it ought to be settled will be wanton extravagance no matter how little it costs. No one in this city who is familiar with the situation can be made to believe that there is not an inexhaustible abundance of good water underneath us that can be procured by sensible, intelligent, practicable and competent effort. Let the water works board make its plans on a proper scale and present them to the people. Then if the city council is disposed to obstruct the execution of such plans the time is not far away when the people can get at the council in a fashion that will count. There is no problem to be solved, only a clear demonstration to be applied. This city can have all the pure water it needs, and if coercion be necessary to get it then let there be coercion.

WINNERS IN THE TOURNAY.

The committee of the golf club appointed to award prizes for the golf contest which closed Saturday, Sept. 29th, has announced the following results:

Gentlemen's Competition—First, Morris Evans; second, George Ladd; third, Charles S. Knight.

Ladies' Competition—First, Miss Gertrude Morris; second and third, Miss Isabel McClure and Miss Elizabeth Knight, a tie. The prizes for the contest were given by President Carleton and Peter Benson. Another competition will be held the latter part of the month at the links and ladies and gentlemen wishing to take part are requested to hand their names to the secretary, J. P. Fraser. The lady and gentlemen making the full round in the least number of strokes will win the prizes.

COLLIDE ON CURVE

PASSENGER TRAINS MEET ON THE MONON TRACK.

BOTH ENGINES ARE SMASHED

THREE MEN HURT AT MONTICELLO SUNDAY.

HAPPENINGS IN HOOSIERDOM

GENERAL NEWS OF THE STATE OF INDIANA.

Monticello, Ind., Oct. 8.—Passenger trains Nos. 33 and 35 on the Monon came together in a head-on collision on the curve south of this place at 2 o'clock yesterday afternoon. Three persons were injured.

The injured: James Covington, engineer of train 35, of Indianapolis.

Laz Noble, of Indianapolis.

Marvin R. Maxwell, of Indianapolis.

The engines were buried in each other and the baggage cars were badly damaged. The crews of both trains jumped. Engineer Covington was picked up unconscious, but later recovered and will be well soon. The others were considerably bruised and cut.

The south-bound train was going slowly, having just left the station, and the north-bound train was slowing up for the station. Otherwise the collision would have resulted in heavy loss of life. No. 33, going south, had lost several minutes, but had made up the time at Monticello, and this evidently resulted in the confusion that gave both trains right of way and caused the wreck.

GOES TO AFRICAN MISSION.

Hartford City, Ind., Oct. 8.—Rev. Ella Greenendyke, a sister of Rev. Montgomery Greenendyke, of this city, has gone to the west coast of Africa as a missionary under the auspices of the woman's board of missions of the United Brethren church. She is sent to the Sierra Leone country, where the terrible massacre occurred two years ago. Rev. Miss Greenendyke has spent four years of her life as a missionary in Africa, and will superintend the reconstruction of the buildings which were destroyed at the time of the massacre.

THREE TIMES LEASED.

Logansport, Ind., Oct. 6.—J. D. Johnston has reopened the Johnston hotel, under his personal management. Two years ago he concluded to retire, and he leased the hotel to Richard Dugan, of Springfield, Ohio, who retired after conducting the hotel for six months. A lease was then made to Jacob Omat, of North Manchester, who retired within three months. Milton M. Spier, of New York city, was the third lessee. He spent considerable money in remodeling and decorating, and changed the name to the Grand Central. Eventually Johnston brought suit for unpaid rent, and Spier demurred, alleging that he had signed the lease under misrepresentation. The courts decided against him, and Mr. Johnston is again behind the desk, determined that the hotel shall regain its lost prestige.

A DIPHTHERITIC SCARE.

Huntington, Ind., Oct. 8.—This city is threatened with an epidemic of diphtheria. The first case was discovered two days ago, and two deaths have already occurred. Many children have been exposed, and it may be necessary to close at least one of the city schools. A number of homes have been quarantined.

CLOSED FOR ONE WEEK.

Delphi, Ind., Oct. 8.—The Delphi schools were today ordered closed for one week, on account of a diphtheritic scare. One death has resulted from the disease and there are several other cases.

FEDERATION OF CLUBS.

South Bend, Ind., Oct. 8.—The Indiana Federation of Women's clubs will hold sessions in this city on the 14th and 15th of November, over which Mrs. Rebecca D. Lowen will preside. Each club in the federation not in arrears can be represented by two delegates. All women's clubs in the state not members of the federation are urged to send visitors.

DROWNED IN THE WELL.

Geneva, Ind., Oct. 8.—James McMullen, jr., son of a well-known farmer, near this place, drowned himself while delirious, the result of typhoid fever. During the temporary absence of his nurse, he sprang from his bed and ran out of the room, going immediately to the family well, which was not far from the house,

and leaping into water, thirty-five feet below. He was drowned before anything could be done in relief. Miller weighed over 220 pounds and the task of recovering his body was not an easy one. He was a young man of unusual brilliancy.

DISAPPOINTED IN LOVE.

Geneva, Ind., Oct. 8.—Mary A. Pickett, seventeen years old, attempted suicide with rat poison, but her life was saved. A few months ago she was declared of unsound mind, but before she could be received in the Eastern Indiana hospital it was thought that she had fully recovered. Disappointment in love is thought to be the cause of her mental impairment. She is plaintiff in a breach of promise case filed in the Jay circuit court about three months ago, in which Thurman Huey, who is now married, is defendant.

BAPTISTS TO MEET

STATE CONVENTION IN FORT WAYNE THIS WEEK.

MANY DELEGATES EXPECTED

SESSIONS TO BE HELD AT FIRST BAPTIST CHURCH.

OPENING TUESDAY EVENING

SPLENDID PROGRAM FOR THE ENTIRE WEEK.

At least four hundred delegates representing the sixty thousand Baptists of Indiana will gather in Fort Wayne this week to hold the annual state convention of that denomination. And the meeting promises to be a notable one, for aside from the presence of representative Indiana Baptists will come a large number of eminent churchmen from other states to participate in the deliberations of the week.

The opening session will be held at the First Baptist church on Tuesday evening, but already the delegates have begun to arrive in the city, among the earliest being Charles M. Roe, manager of the Chicago house of the American Baptist publishing society. The names of 385 accredited delegates have already been enrolled, and as rapidly as they reach the city the visitors register at the Baptist church and are then assigned to homes in the city where they are to be entertained during their stay of five days in Fort Wayne.

Rev. L. T. Hanson and his committee have been busy at work for weeks arranging preliminary details of the convention and it promises to be one of the best ever held. In addition to the regular convention work their will be sessions of the various boards and societies, including the Baptists Young Peoples' union.

THE PRESENT OFFICERS.

The state president, Hon. W. T. Whittington, of Crawfordsville, will preside over the convention. Rev. T. J. Villers, of Indianapolis, is the first vice president and ex-officio president of the educational board. The second vice president is Rev. J. W. Cleveland, of Strymon, who is ex-officio president of the Sunday school board. Rev. C. D. Case, Ph. D., of Terre Haute, is third vice president, and ex-officio president of the B. Y. P. U. board. Rev. B. E. Neighbor, of Indianapolis, is secretary. Rev. J. J. W. Billingsley, of Indianapolis, is treasurer, and Rev. Albert Ogle, of Indianapolis, is superintendent of missions.

Hon. Allen Zollars and Rev. L. T. Hanson will formerly welcome the visitors to Fort Wayne at the opening session Tuesday evening, and the complete program of the week will be found below:

THE COMPLETE PROGRAM.

—Tuesday, Oct. 9—

NEW FUTURE FOR TRANSVAAL.

There is little doubt that if roads are made, new markets created and money spent on its development the Transvaal will offer a widely different future—an almost boundless field for the employment of industrial and agricultural immigrants; and to any man with a large family and a capital utterly disproportionate to the position in life to which they were born and in which he hopes to place them I confidently say—go to the Transvaal, to its wide fields, its freedom from pretense and expense, its sunshine and pure, exhilarating air. There is not a happier being in the whole world than a Boer with his ten acres of waterland, a span of oxen and a wagon.—London Mail Correspondent.

COUGH SYRUP

Cures a Cough or Cold at once.

Coughs, Croup, Whooping Cough, Bronchitis, Grippe and Consumption. Quick, sure results. Dr. Bull's Pills cure Constipation. 50 pills 10c.

In the New York Central service twenty years ago the aggregate proportion of men discharged for drunkenness was 20 per cent., but now with 30,000 men in the employ of the company less than 1 per cent. is dropped from the rolls for that cause.

THE MARKETS.

Chicago, Oct. 8.—Wheat was easier early under the influence of a decline at Liverpool and clear weather in the northwest and lower receipts at north western points. November opened 3/4c lower, at 77 1/2c to 77 3/4c. A moderate amount of foreign selling on the cables sent the price down to 76 1/2c. A reaction ensued to 77c. Local receipts were 222 cars, 3 of contract grade. Minneapolis and Duluth reported 95 cars against 767 last week. The corresponding day last year was a holiday.

Corn was firm on a fair demand caused by moderate country offerings. Receipts were 803 cars. November opened unchanged at 37 1/2c to 37 3/4c and sold to 37 1/2c to 37 3/4c. Oats were quiet and practically unchanged, November opening a shade lower at 22 1/2c and selling to 22 3/4c. Receipts were 431 cars. Provisions were quiet but showed firmness because hog receipts were 5,000 head under the estimate. January pork opened 5 cents higher at \$11.92 and advanced to \$12.00. January lard five up at \$7.00, selling to \$7.02 1/2 and January ribs unchanged at \$6.32 1/2, rising to \$6.37 1/2. October pork, which had been cornered, changed hands at \$17.00 during the first hour. This was unchanged from Saturday's close.

THE CLOSE.

Prices at the close were as follows:

Wheat—Oct. 76 1/2c; Nov. 76 1/2c; Dec. 77 1/2c to 77 3/4c.

Corn—Oct. 37 1/2c; Nov. 37 1/2c to 37 3/4c; Dec. 35 1/2c; May, 35 1/2c to 35 3/4c.

Oats—Oct. 22 1/2c; Nov. 22 1/2c to 22 3/4c; Dec. 22 1/2c to 22 3/4c.

Pork—Oct. \$11.92; Nov. \$11.70; Jan. \$11.85.

Lard—Oct. \$7.32 1/2; Dec. \$7.12 1/2; Nov. \$7.27 1/2; Jan. \$7.00.

Ribs—Oct. \$6.32 1/2; Nov. \$7.40; Jan. \$6.32 to \$6.35.

Flax—Cash N. W., \$1.60; S. W., \$1.58; Nov. \$1.55; Oct. \$1.58; Dec. \$1.55; May, \$1.55.

CHICAGO LIVE STOCK.

Chicago, Oct. 8.—Cattle—Receipts 19,000 including 2,500 westerns and 500 Texas, steady to strong. Prime steers, \$5.50 to \$5.95; poor to medium, \$4.50 to \$4.85; stockers and feeders, weak, \$2.50 to \$3.00; cows, \$2.05 to \$2.35; heifers, \$2.75 to \$4.45; canners, slow, \$2.00 to \$2.50; bulls, \$2.50 to \$4.25; calves, \$4.00 to \$6.00; Texas fed steers, \$4.10 to \$4.85; Texas grass steers, \$3.30 to \$4.00; Texas bulls, \$2.50 to \$3.25.

Hogs—Receipts today 35,000; tomorrow, 22,000; left over, 5,369. Steady to firm; top \$5.40. Mixed and butchers, \$4.95 to \$5.40; good to choice, heavy, \$4.95 to \$5.40; rough heavy, \$4.80 to \$5.00; light, \$4.90 to \$5.40; bulk of sales, \$5.10 to \$5.30.

THE DAY ON WALL STREET.

New York, Oct. 8.—Trading was active at the opening and realizing sales called prices downward. The important industrial and specialties led with losses of about a point.

Reading first preferred was a prominent exception to the weakness, with a gain of half, and Anaconda rose nearly a point.

The depression in steel and wire spread to other metals stocks, and American Hoop, National steel, Tin plate and steel and wire preferred declined 1/4 to 1/2. Tennessee coal was in demand and rose 1/4, but subsequently lost 5 more than the rise.

Most of the prominent stocks fell off from the opening level, but there was a quick turn upward in which sugar, Brooklyn transit and Peoples gas was prominent. Railroad stocks made only a feeble response and turned downward before 1 o'clock, dragging everything else off. The Metropolitan, pressed steel car, Peoples gas, tobacco, Northern Pacific, Southern preferred, New York Central and New Jersey Central lost 1/2 to 1 point.

Chicago and Northwest preferred and New York, New Haven and Hartford declined 3/4 each from the last sale.

Offerings of stocks diminished and trading became dull and staidier when Sterling exchange weakened. When Pennsylvania advanced a point the general list picked up. Tennessee coal getting back to 2 points above Saturday's close. In other stocks improvements were less than a point. Northwestern ran off 1 1/2 at midday.

Bonds were irregular with the active issues lower.

THE MONEY MARKET.

New York, Oct. 8.—Money on call nominally 2 1/2 per cent; prime mercantile paper 5 1/2 per cent; sterling exchange weak with actual business in bankers' bills at \$4.84 1/2 for demand and at \$1.81 1/2 for 60 days. Prepaid rates, \$4.81 1/2 to \$4.82 1/2; \$4.85 1/2 to \$4.86 1/2; commercial bills, \$4.80 1/2 to \$4.81 1/2; \$4.82 1/2 to \$4.83 1/2; \$4.84 1/2 to \$4.85 1/2; \$4.86 1/2 to \$4.87 1/2; \$4.88 1/2 to \$4.89 1/2; \$4.90 1/2 to \$4.91 1/2; \$4.92 1/2 to \$4.93 1/2; \$4.94 1/2 to \$4.95 1/2; \$4.96 1/2 to \$4.97 1/2; \$4.98 1/2 to \$4.99 1/2; \$5.00 1/2 to \$5.01 1/2; \$5.02 1/2 to \$5.03 1/2; \$5.04 1/2 to \$5.05 1/2; \$5.06 1/2 to \$5.07 1/2; \$5.08 1/2 to \$5.09 1/2; \$5.10 1/2 to \$5.11 1/2; \$5.12 1/2 to \$5.13 1/2; \$5.14 1/2 to \$5.15 1/2; \$5.16 1/2 to \$5.17 1/2; \$5.18 1/2 to \$5.19 1/2; \$5.20 1/2 to \$5.21 1/2; \$5.22 1/2 to \$5.23 1/2; \$5.24 1/2 to \$5.25 1/2; \$5.26 1/2 to \$5.27 1/2; \$5.28 1/2 to \$5.29 1/2; \$5.30 1/2 to \$5.31 1/2; \$5.32 1/2 to \$5.33 1/2; \$5.34 1/2 to \$5.35 1/2; \$5.36 1/2 to \$5.37 1/2; \$5.38 1/2 to \$5.39 1/2; \$5.40 1/2 to \$5.41 1/2; \$5.42 1/2 to \$5.43 1/2; \$5.44 1/2 to \$5.45 1/2; \$5.46 1/2 to \$5.47 1/2; \$5.48 1/2 to \$5.49 1/2; \$5.50 1/2 to \$5.51 1/2; \$5.52 1/2 to \$5.53 1/2; \$5.54 1/2 to \$5.55 1/2; \$5.56 1/2 to \$5.57 1/2; \$5.58 1/2 to \$5.59 1/2; \$5.60 1/2 to \$5.61 1/2; \$5.62 1/2 to \$5.63 1/2; \$5.64 1/2 to \$5.65 1/2; \$5.66 1/2 to \$5.67 1/2; \$5.68 1/2 to \$5.69 1/2; \$5.70 1/2 to \$5.71 1/2; \$5.72 1/2 to \$5.73 1/2; \$5.74 1/2 to \$5.75 1/2; \$5.76 1/2 to \$5.77 1/2; \$5.78 1/2 to \$5.79 1/2; \$5.80 1/2 to \$5.81 1/2; \$5.82 1/2 to \$5.83 1/2; \$5.84 1/2 to \$5.85 1/2; \$5.86 1/2 to \$5.87 1/2; \$5.88 1/2 to \$5.89 1/2; \$5.90 1/2 to \$5.91 1/2; \$5.92 1/2 to \$5.93 1/2; \$5.94 1/2 to \$5.95 1/2; \$5.96 1/2 to \$5.97 1/2; \$5.98 1/2 to \$5.99 1/2; \$6.00 1/2 to \$6.01 1/2; \$6.02 1/2 to \$6.03 1/2; \$6.04 1/2 to \$6.05 1/2; \$6.06 1/2 to \$6.07 1/2; \$6.08 1/2 to \$6.09 1/2; \$6.10 1/2 to \$6.11 1/2; \$6.12 1/2 to \$6.13 1/2; \$6.14 1/2 to \$6.15 1/2; \$6.16 1/2 to \$6.17 1/2; \$6.18 1/2 to \$6.19 1/2; \$6.20 1/2 to \$6.21 1/2; \$6.22 1/2 to \$6.23 1/2; \$6.24 1/2 to \$6.25 1/2; \$6.26 1/2 to \$6.27 1/2; \$6.28 1/2 to \$6.29 1/2; \$6.30 1/2 to \$6.31 1/2; \$6.32 1/2 to \$6.33 1/2; \$6.34 1/2 to \$6.35 1/2; \$6.36 1/2 to \$6.37 1/2; \$6.38 1/2 to \$6.39 1/2; \$6.40 1/2 to \$6.41 1/2; \$6.42 1/2 to \$6.43 1/2; \$6.44 1/2 to \$6.45 1/2; \$6.46 1/2 to \$6.47 1/2; \$6.48 1/2 to \$6.49 1/2; \$6.50 1/2 to \$6.51 1/2; \$6.52 1/2 to \$6.53 1/2; \$6.54 1/2 to \$6.55 1/2; \$6.56 1/2 to \$6.57 1/2; \$6.58 1/2 to \$6.59 1/2; \$6.60 1/2 to \$6.61 1/2; \$6.62 1/2 to \$6.63 1/2; \$6.64 1/2 to \$6.65 1/2; \$6.66 1/2 to \$6.67 1/2; \$6.68 1/2 to \$6.69 1/2; \$6.70 1/2 to \$6.71 1/2; \$6.72 1/2 to \$6.73 1/2; \$6.74 1/2 to \$6.75 1/2; \$6.76 1/2 to \$6.77 1/2; \$6.78 1/2 to \$6.79 1/2; \$6.80 1/2 to \$6.81 1/2; \$6.82 1/2 to \$6.83 1/2; \$6.84 1/2 to \$6.85 1/2; \$6.86 1/2 to \$6.87 1/2; \$6.88 1/2 to \$6.89 1/2; \$6.90 1/2 to \$6.91 1/2; \$6.92 1/2 to \$6.93 1/2; \$6.94 1/2 to \$6.95 1/2; \$6.96 1/2 to \$6.97 1/2; \$6.98 1/2 to \$6.99 1/2; \$7.00 1/2 to \$7.01 1/2; \$7.02 1/2 to \$7.03 1/2; \$7.04 1/2 to \$7.05 1/2; \$7.06 1/2 to \$7.07 1/2; \$7.08 1/2 to \$7.09 1/2; \$7.10 1/2 to \$7.11 1/2; \$7.12 1/2 to \$7.13 1/2; \$7.14 1/2 to \$7.15 1/2; \$7.16 1/2 to \$7.17 1/2; \$7.18 1/2 to \$7.19 1/2; \$7.20 1/2 to \$7.21 1/2; \$7.22 1/2 to \$7.23 1/2; \$7.24 1/2 to \$7.25 1/2; \$7.26 1/2 to \$7.27 1/2; \$7.28 1/2 to \$7.29 1/2; \$7.30 1/2 to \$7.31 1/2; \$7.32 1/2 to \$7.33 1/2; \$7.34 1/2 to \$7.35 1/2; \$7.36 1/2 to \$7.37 1/2; \$7.3

BLANCHARD DEAD

DISTINGUISHED RAILROADER
SUCCEUMS TO DISEASE.

WAS AT THE HEAD OF RANKS

AN ACKNOWLEDGED AUTHORITY ON RAILWAY MATTERS.

ADAMS EXPRESS CHANGES

FREDOUS AMES RESIGNS—JOHN WILKINSON ADVANCED.

George B. Blanchard, former commissioner of the Joint Traffic association, died at his home in New York today, after an illness of several weeks from a complication of diseases, including nervous prostration and erysipelas. Mr. Blanchard overtaxed himself during the summer. He was engaged for many days in an argument against the bill introduced into congress providing for a reduction of the compensation to railroads for transportation of mails. The funeral arrangements have not been made.

Mr. Blanchard was 59 years old. He was a railway man all his life. He began as a clerk in 1856 in the employ of the Cincinnati and Chicago road. He was subsequently connected with the Ohio and Mississippi, the Central Ohio, Baltimore and Ohio and Erie roads, becoming vice president of the Erie in 1884. He became a commissioner of the Central Traffic association and then chairman in 1898 and was given charge of the Joint Traffic association until it was dissolved. He was regarded as one of the highest authorities on railway rates in the country. During the Spanish war Mr. Blanchard gave the government the benefit of his knowledge of transportation, but he declined a brigadier generalship tendered him by the president. He was called on by railroads all over the country for expert advice and to act as arbitrator in cases of difference. In addition to his extensive knowledge of railroad affairs, he was a forceful and entertaining writer even on the most technical subjects, and in leisure moments he occasionally wrote verse for recreation.

WABASH SUED FOR DAMAGES.

Two suits were filed against the Wabash in Carroll county last week. The plaintiffs are the heirs of Dr. Wycliffe Smith and the mother of Francisco M. Sousa and the sum demanded is \$10,000. On the 23rd of December last Dr. Smith and Sousa were killed by being struck by a Wabash train while they were crossing the tracks in a buggy. The complaint alleges that the train was running at the rate of seventy-five miles an hour and that no whistle or bell was sounded within eighty rods of the crossing as the law directs. Sousa was a Cuban whom Dr. Smith, who was a colonel in the American army in Cuba during the war with Spain, had brought to Indiana.

TOOK OFF EXTRA CREW.

The Wabash has discontinued the arrangement by which an extra switching crew operated at nights in the Fort Wayne yards, using the local freight engines for power. There was a slight falling off in business for a day or so, but it has revived and the extra may go to work again, perhaps this evening.

MR. MOONEY'S FAST RUN.

Under the conditions in which it was made, the run accomplished by Pennsylvania engine 287, with Engineer John Mooney at the throttle, last Thursday was one of the best ever made on the road. Mr. Mooney took a train of eleven heavily laden cars from this city to Chicago in three hours and eight minutes, including stops to allow the limited and No. 8 to pass of eight minutes.

The train left this city fifty minutes late and went into Chicago on time. It was No. 10, a highly scheduled mail, express and through passenger train and it was hauled by the first class X engine ever built in the Fort Wayne shops.

CASHIER AMES RESIGNS.

Fredous H. Ames, cashier at the office of the Adams Express company, has tendered his resignation to the company, the same becoming effective next Monday. He has secured a more lucrative position with the Caravan shoe company and will enter upon the duties of his new office Monday morning. John Wilkinson, bill clerk at the Pittsburgh depot office of the company, has received the appointment of cashier. The appointment of a bill clerk has not yet been made, but it is believed that civil service rules will govern the appointment and it is not hard to guess who will get the position. Mr. Wilkinson has been in the employ of the company for many years and has earned the advancement by a faithful and honest service.

ENGINE WAS DISABLED.

Engine 5, Engineer Plunigan at the throttle, which was pulling the Findlay excursion train into the city yesterday, burst a few near Bateson and the train was stuck there nearly four hours. Engineer Richards, with another engine, was dispatched to Bateson to bring the train in. It had about fifty or sixty excursionists and they were not in the best of humor when they arrived here. The train was due at 10:45 a. m., but it was 2:15 o'clock in the afternoon when it pulled into the depot in this city. Conductor Hoppe had charge.

THREE SHOPMEN INJURED.

Ernest Rehling, machinist, and William Giffin, boiler-maker, are each nursing a lame foot, the members being injured nearly in the same manner. Mr. Rehling stepped upon a board, from which protruded a rusty nail, which penetrated his foot, inflicting a painful wound. Mr. Giffin stepped upon a piece of glass on the street, and it cut through his shoe and entered the sole of his foot to the bone, also causing a painful wound. Another victim of accident is Thomas Gorman, also a boiler-maker, who had one of his hands burned Saturday and later caught cold in the wound. He will be off duty several days. All these unfortunate gentlemen are Pittsburgh employees.

THE BROTHERHOOD MEETING.

The delegates and other Fort Wayne railway men who attended the joint meeting of the brotherhoods in Toledo yesterday pronounced it one of the most important and interesting gatherings of its character ever witnessed in this part of the country. The attendance was fully up to 1,200 and included the heads of all the brotherhoods. One of the important subjects up for discussion was the proposition to establish a general pension fund or a home for superannuated employees, the plans for which were published in The Sentinel a week or two ago. Another important question acted upon is concentrated and united action upon all matters for the advancement of the men composing any of the brotherhoods. For the accommodation of the Fort Wayne delegation the Wabash ran an excursion into Toledo and it went into that city loaded to its full capacity.

Among the notables present were P. M. Arthur, grand chief of the Brotherhood of Locomotive Engineers; F. P. Sargent, chief of the Brotherhood of Locomotive Firemen; E. E. Clark, chief of the Order of Railway Conductors; R. S. Kayler, state railway commissioner; Mrs. R. M. Moore, president Ladies' Auxiliary O. R. C.; Mrs. Cassill, of the Firemen's auxiliary; Mrs. George Wilson, president of the Volunteer Relief association, and many others from all over the union. Two or three special trains brought in great loads of people from the Baltimore and Ohio, Lake Shore, Hooking Valley, Wabash and other lines. The spacious hall was packed to the dome, the galleries being crowded and many turned away. Addresses were made by Arthur, Sargent, Clark and several others.

INDUSTRIAL NOTES.

Machinist Henry Kopp, of the Bass shops, is detained at home by the sickness of his wife.

P. C. Liggett, agent of the Lake Shore, attended the union brotherhood meeting in Toledo yesterday.

John W. Miller has returned to his work on the Nickel Plate after a visit at Massillon, Ohio, his old home. Andy Huber, who had been sick, resumed work at the Pittsburgh planing mills this morning, after a week's absence.

P. Diester reported for duty at the Pittsburgh shops this morning. Last week he had one of his fingers injured.

John Mannaek, boiler-maker, who was hurt last week, resumed his place in the Pittsburgh shops this morning.

J. C. Granth, Pittsburgh yard engineer, who was sick six weeks, has re-

covered sufficiently to report for duty this morning.

Station Master J. W. Clark, of the Pittsburgh, has returned from a business trip to Missouri.

George Zigler resumed his place in the lumber yards of Rhinesmith & Simonson this morning. He had been sick a few days.

A. W. Hicks, a Pittsburgh yard conductor, has been entertaining his father for two or three days and took a lay off for that purpose.

Galler Walter Stanley, of the Nickel Plate, who went to North Manchester to see his brother who is sick, is expected home this evening.

M. E. Baum, Nickel Plate conductor, last week moved to 111 Van Buren street, in a house recently erected for him, and is now very comfortable domiciled.

After a week's outing at Dallas lake where he hunted squirrel and fished alternately, F. J. Ruch has returned to his work in the Pittsburgh copper shop.

Brakeman L. Schoonover, of the Nickel Plate, is sick. Brakeman F. E. Todd and W. E. Erickson, of the same road, are off duty looking after private affairs.

Conductor T. Scaney resumed work on the Nickel Plate yesterday, after some days' absence on account of sickness in his family. His children had scarlet fever.

J. H. Hackenberg, of White Pigeon, Mich., has taken a position in the Pennsylvania freight house. He was formerly employed on the Grand Rapids and Indiana road.

William Palmer, foreman of the axle gang, and Alonzo Timmis, an axle turner, have returned to their respective duties in the Bass blacksmith shop, after a few days' illness.

Conductor F. I. Stump, of the Findlay, Fort Wayne and Western road, and his wife have been entertaining Mrs. Henry Mansfield, of Tiffin, and Mrs. C. F. Burgess, of Bellevue, Ohio, for several days.

Mr. and Mrs. Charles Bittner have returned from South Whitley, where they attended the birthday anniversary of Mrs. Bittner, his mother. Mr. Bittner, who is a Nickel Plate brakeman, resumed work this morning.

C. A. Reynolds, who has been employed for some time as a brakeman, has concluded to learn the machinists' trade and with that end in view will return to his old home in Muncie and enter a machine shop.

Mr. and Mrs. W. P. Hartley have arranged for a visit with relatives in Philadelphia and New York and will leave for the east next Monday. Mr. Hartley is a switchman in the employ of the Pennsylvania company.

Charles J. Weller, a driver for the Adams Express company, was severely injured about the back and hips this morning by trying to lift a box too heavy for him. He will probably be unable to work for several days.

Word from the bedside of Thomas Gallivan, who is lying ill at Hartford City, is very encouraging. He suffers from a slight attack of typhoid fever, which in the start threatened to be quite serious. Mr. Gallivan is a Nickel Plate brakeman.

John Bresnahan, one of the veterans in the shops of the Pittsburgh, has been appointed keeper at nights of the company's old house, near the round house, relieving Ed Croninger, who will return to his old position in the round house.

Charles M. Hayes, general manager of the Grand Trunk road, has been offered the presidency of the Southern Pacific road, but so far as is known, he has not yet replied. Mr. Hayes was general manager of the Wabash a few years ago.

Walter Adams, who has been out on the road in the interest of the Bass company since early last spring, has returned to his old place at the bench in the machine shop. His last stop of any consequence was at Wellsville, where he installed a Bass engine.

Machinist B. G. Pierce, Blacksmith John Rhinesmeyer and Machine Operator C. C. Miland, of the Pittsburgh shops, are sick and off duty. E. H. Fuelling and C. Lucas, of the planing mills, are also off duty, the former with a lame hand and the latter for unknown reasons.

James O'Leary and his gang of section men are busy putting in a new slip switch of a little different pattern from the others in the Pittsburgh yards west of Hanna street. This style of switch is known to the railway men as the "puzzle switch," because of its complicated construction.

The rain yesterday sadly interfered with the plans of a number of shopmen and caused considerable disappointment in the ranks. Many of the men had arranged fishing trips down the Maumee, up the St. Joseph, up the St. Mary's and elsewhere and they were compelled on account of the storm, to forego that pleasure.

Yesterday's Associated Press dispatches told of the death of a prominent railroad man, W. R. Bissell, who occupied a prominent position in the freight department of the Southern Pacific. He died of cancer in San Francisco yesterday morning. Bissell was a brother to Frederick M. Bissell, auditor of the Pennsylvania railroad.

Frank Opatz, the well known Pittsburgh blacksmith, had his arms burned about a year ago and the wounds never healed properly until recently. A few weeks ago the injury became painful and Mr. Opatz took a leave

of absence from his work and placed himself in the hands of the company's surgeon for treatment. The result is complete recovery.

The employees inside the east car shops and those at work on the outside of the building, each have a ball team and Saturday afternoon they played one of a series of games which shall decide the championship. The score resulted in a decided victory for the outsiders, being 25 to 10. The insiders became demoralized at an early stage of the game and from that time to the close the outsiders had a "walkover."

The Nickel Plate has established a new record in the way of freedom from wrecks. The wreck car has not been called into service for six weeks. This immunity from accidents of this character will appear all the more remarkable when we take into consideration the business of the road and the great number of engines and cars in daily use on the line. The Nickel Plate is next to the Pennsylvania in the number of trains it brings in and takes out of this city.

Joseph Brown, a switchman in the Logansport yards of the Panhandle road, was run over and killed at 3 o'clock Saturday afternoon. A passenger on a Wabash train brought the word here that the unfortunate man was C. S. Brower, a former Fort Wayne citizen and brakeman on the Pittsburgh, who went to Logansport to work a short time ago, and the false news caused considerable grief among Mr. Brower's relatives for awhile. They telegraphed to Logansport for particulars and the reply came that Mr. Brower was well and working as usual.

A Columbus paper remarks that "the men who get their training with the Pennsylvania road in any of the departments become expert enough in a comparatively short period of time to accept very much better and more lucrative positions with other companies and that the railroads recognize this fact and are profiting by putting it in practice." Fort Wayne has long known this to be a fact, as more than a dozen men who received their railway education in the Pennsylvania road and shops at this place are now holding responsible positions on other lines. The latest case of this character is that of Charles W. Cross, recently appointed master mechanic of the Lake Shore.

ARE QUICK TO SEE.

Good Doctors are Quick to See and Appreciate Real Merit in New Medicines.

Stuart's Dyspepsia Tablets are a discovery of great value to the medical profession and the public. They are an unfailing specific in all cases of dyspepsia and disordered digestion.

Almost everybody's digestion is disordered more or less, and the commonest thing they do for it is to take some one of the many so-called blood purifiers, which in many cases are merely strong cathartics. Such things are not needed. If the organs are in a clogged condition they need only a little help and they will right themselves. Cathartics irritate the sensitive linings of the stomach and bowels and often do more harm than good.

Purging is not what is needed. The thing to do is to put the food in condition to be readily digested and assimilated. Stuart's Dyspepsia Tablets do this perfectly. They partly digest what is eaten and give the stomach just the help it needs. They stimulate the secretion and excretion of the digestive fluids and relieve the congested condition of the glands and membranes. They put the whole digestive system in condition to do its work. When that is done you need to take no more tablets, unless you eat what does not agree with you. Then take one or two tablets—give them needed help and you will have no trouble.

It's a common sense medicine and a common sense treatment and it will cure every time. Not only cure the disease, but cure the cause. Goes about it in a perfectly sensible and scientific way.

We have testimonials enough to fill a book, but we don't publish many of them. However—

Mrs. E. M. Faith, of Byrd's Creek, Wis., says: I have taken all the tablets I got of you and they have done their work well in my case, for I feel like a different person altogether. I don't doubt if I had not got them I should have been at rest by this time.

H. E. Willard, Onslow, Ia., says: Mr. White, of Canton, was telling me of your Dyspepsia Tablets curing him of dyspepsia, from which he had suffered for eight years. As I am a sufferer myself, I wish you to send me a package by return mail.

Phil Brooks, Detroit, Mich., says: "Your dyspepsia cure has worked wonders in my case. I suffered for years from dyspepsia, but am now entirely cured and enjoy life as I never have before. I gladly recommend them."

It will cost 50c. to find out just how much Stuart's Dyspepsia Tablets will help you. Try them—that's the best way to decide.

All druggists sell them. A little book on stomach diseases will be mailed free by addressing F. A. Stuart Co., Marshall, Mich.

LAYS RIOT AT DOOR OF POLICE.

Akron, Ohio, Oct. 6.—The special grand jury, which for five weeks has been investigating the riot of August 22, in which the city building was burned and two children killed, reported late yesterday afternoon. The responsibility for the riot is laid on the police department and the assertion is made that the character, number, age and physique of the rioters was such that at any time they could have been dispersed by a dozen courageous men. It is stated that the saloons are to blame, for except for them and the liquor sold to the turbulent element the rioters would not have been nerve to committing such violent deeds. After Columbia hall was burned and dynamite fired in the entrance of the city building "there was no one," the report says, "to stand up for Akron. Her responsible and legal guardians had fled. She lay prostrate before a

band of hoodlums. Her fair name was smirched for the want of moral and physical courage." Forty-five persons were indicted. Councilman George Brodt and Andrew Halter, a democratic politician, are the only well-known persons in the list.

VALVE AND PIPE MEN COMBINE

Pittsburg, Oct. 4.—The Pittsburgh Valve, Foundry and Construction company, a combination of a majority of the blast furnace and steel mill steam fitters and pipe benders of this city, has been formed with \$1,000,000 capital and operations will begin on November 1. The business of the Pittsburgh steam fitters, which has heretofore been confined to the territory west of New York and east of the Mississippi river, will be expanded to include the entire country.

PLAYED TWO GAMES.

Two fine games of foot ball were played on Saturday afternoon before a crowd of about four hundred people at League park. The first game was between the City team and the Auburn city team, which resulted in a victory for the locals by a score of 17 to 5. Both teams were well matched as to weight, but the Fort Wayne boys played the better game and outclassed their opponents in field tactics. The second game was between the high school and International business college teams and the high school boys won by a score of 10 to 0. The business college team was lighter, but gave their opponents a hard struggle. The high school team expects to play in Huntington next Saturday.

WEDDED LAST EVENING.

At the home of the bride's parents, 83 East Jefferson street, on Sunday evening occurred the marriage of Miss Mary Dudenhofer and Louis Willrath. The ceremony was performed by Rev. Jacob Miller, pastor of St. Paul's Lutheran church, at 6 o'clock, the guests present being the immediate relatives of the couple. Mr. and Mrs. Willrath will commence housekeeping at once.

GONE TO CRAWFORDSVILLE.

Dr. D. W. Moffat, of the First Presbyterian church; Rev. J. L. Leeper, of Westminster church, and Dr. McGaw and James English, of the Third church, have gone to Crawfordsville to attend the annual meeting of the Presbyterian synod of Indiana. The synod this year is a delegate body, delegates being appointed from each presbytery to attend. Among the important questions to come before the body this year is the revision of the Westminster confession of faith and a majority of the presbyteries are expected to present a report favoring a revision.

BECAME A CHRISTIAN.

A. C. Katt, formerly in the bicycle business on Clinton street, has received a letter from Charles Wyszog, who now resides in Hamilton, Ohio, in which the writer states that he purchased a bicycle from Mr. Katt some years ago in this city, part of the sum being paid. A large balance remained, however, and the man announces that he has become converted to Christianity through the Salvation Army, and he desires to square himself with God and man, as he states in his letter. Wyszog got into trouble here some time ago, and left town suddenly.

FT. WAYNE DEMOCRATIC CLUB.

The Fort Wayne Democratic club will hold a meeting in Saengerbund hall Tuesday night. This club consists of old-time democrats. We care not what you voted four years ago, and all those affiliating now with the democratic party are welcome to become members. Speeches will be made by several of our best orators. Everybody come.
